Electronic Merchant Systems Offers Merchant Services Agent Program In Wyoming

March 24, 2022

Cleveland, Ohio - March 24, 2022 -
Cleveland, OH, based Electronic Merchant Systems (EMS), would like to invite Wyoming merchant services resellers to join their Agent Program. Widely considered the merchant services agent program with the quickest turnaround in the payments industry, EMS offers 10 minute auto approvals, and they can get merchants processing the same day they sign up. This allows Agents to maximize their residuals and achieve greater levels of success. Electronic Merchant Systems also offers a merchant services agent program in Kentucky.

"To be a successful merchant services agent, you need to be partnered with one of the leading payment processors and have access to unparalleled payment processing solutions," says EMS. "A merchant services reseller needs to be able to approach E-commerce merchants as well as businesses with physical locations. With the EMS Agent Program, credit card processing agents can adapt to an ever-changing industry. With the growth of E-commerce, evolving technology, and consumer purchasing trends, it's imperative that ISO Agents are on the cutting edge of the payment industry. With Electronic Merchant Systems, you can become a merchant services industry leader."

Becoming an ISO Agent with Electronic Merchant Systems comes with many benefits. One of the most significant advantages is partnering with a merchant services agent program that can provide for an Agent's needs today and anticipate their future needs. EMS works to be a pioneer to ensure that their Agents are ahead of the payment processing industry. Their commitment to being at the forefront of the industry ensures they can help their ISOs reach their full potential. They also help their team increase their residuals through their cash discount and surcharge programs.

Becoming an ISO is usually a complicated and time-consuming process. With EMS, however, Agents have the assistance they need to become an ISO. Not only will EMS help with the registration process, but for qualified Agents, EMS will cover the cost.

With EMS, merchant services resellers can always be sure that their every need will be met by the payment processing company. Through Electronic Merchant Systems' customer support team, ISOs receive world-class support that they can offer to their merchants.

Another benefit the EMS Agent program offers is the ability to white-label their agent portal. MyPortfolio was designed by Agents for Agents and provides an in-depth breakdown of merchant activity, a chargeback portal, sub-agent management, transparent reporting on residuals to an interchange level, and online applications via DocuSign.

Perhaps the most significant benefit is the most recent announcement of the 10 minute auto approvals. With this new approval process, merchant services agents can maximize their residuals by being able to reach more merchants, which allows them to grow their merchant portfolio.
