March 20, 2022 -
Jacksonville, Florida - Rainbow Notary and Nuptials is pleased to continue offering remote online notarization in Florida and the neighboring regions.

The Florida-based firm began offering Best Notary Services in 2020 and has already serviced many customers in the region. Rainbow Notary and Nuptials notarize papers remotely, regardless of whether the customer is on the other side of town or the globe. As a result, individuals and businesses may use this service to expedite their transactions. Clients may sign papers anywhere globally and transmit them to the Rainbow Notary and Nuptials in Florida using a smartphone, a tablet, or a computer. The Notary may then deliver the papers to the Florida Secretary of State and have them returned by FedEx to the clients the same day.

"Our mobile application enables you to securely complete your documents anywhere at any time with just a few clicks of your smartphone screen so that when it matters most, our technology can be there for you," the company.

The critical nature of their remote online Notary became increasingly relevant when the Covid-19 outbreak struck the globe, severely affecting the United States. They assert that the remote online Notary has created a limitless chance for clients to "meet" with notaries. Additionally, customers can be certain that their papers are valid since most of the company's Notaries are members of the National Notary Association.

The organization ensures the papers' legality by using Remote Online Notary systems that include Knowledge-Based Authentication, which validates the signer's identity via a driver's license or passport credential analysis. The software enables customers and notaries to have a face-to-face video conference recorded and archived for ten years, therefore securing and verifying the transaction.

"Technology allows human knowledge to be used at a deeper level to customer service, resulting in improved service and connections. Without the constraints of repetitive chores and redundancies, professionals can concentrate on what matters most - the people they serve," they say.

With the ongoing fight against the Covid-19 outbreak, contact-free service is likewise encouraged by Rainbow Notary and Nuptials. They provide complimentary consultations concerning their services. Additionally, they give customized service, prioritizing their customers' demands. Interested parties may learn more about all of their services by visiting https://rainbownotaryandnuptials.com/.
