Roofing Company in Douglasville, GA, Paramount Roofing & Consulting, Receives 5-Star Review

March 25, 2022

March 25, 2022 -

Paramount Roofing & Consulting, a company that bills itself as a one-stop-shop for all roofing needs in Douglasville, GA, has announced that it recently received a 5-star review that praises the company?s work quality, speed of delivering the promised work, and commitment to leaving a clean site after the job is finished. The review also mentions that the company?s roofer took all the steps necessary to ensure that there was enough proof to get the cost of the roofing repair covered by the homeowner?s insurance policy.

Paramount Roofing & Consulting provides roof installation, roof repair, and roof tarping services to residential homeowners across Austell, Mableton, Smyrna, Marietta, Kennesaw, Sandy Springs, Brookhaven, Powder Springs, Southern Fulton County, and all other surrounding areas. It has over 12 years of experience serving clients with all kinds of regular roofing jobs as well as serving the emergency roof repair needs of Douglasville residents. The company is fully licensed and bonded, ensuring the homeowner that their property?s roof is in capable hands that can be trusted to do a thorough job every time.

The recent Paramount Roofing & Consulting customer review that it received on its Google My Business page says, ?My roof was 20 years old. The shingles were coming off, we were trying to wait until 2022 to

have it replaced. I was talking to one of my customers about needing the roof replaced, that's when he told me about Paramount Roofing. So, I gave them a call and talked to Otis, he sent his Specialist Sean out. As a matter of fact, Sean came out about 4 times to make sure he got all the pictures he needed, he also took video with his drone for the insurance company. The new roof is beautiful, the crew finished the work in record time, and they also did a great job with the cleanup.?

Otis Floyd, the owner of the company, responded to the review by saying, ?We are grateful for the client for leaving us an encouraging 5-star review. It validates our efforts and makes us enthusiastic to serve the local Douglasville, GA community with the same enthusiasm that we have operated with for more than a decade. We helped the client make sure they had enough photographic evidence so that there would be no hindrances to their paperwork when the time comes to submit the receipts to their insurance company. We work hard to help every client like this because we realize how expensive roof repairs can get and how important it is to give customers the right support to help them deal with these expenses with the insurance policy that they are already paying for. We appreciate the reviewer for mentioning the quality of the work which is of the highest priority for us. We wouldn?t have managed to survive for over a decade if we hadn?t perfected our craft and we are glad that it gets recognized by our clients. We also ensure to clean every worksite that we visit so that it is just as pristine as it was when we arrived, and even more so. Thank you again, Ohms Electronics, for the review and rating.?

On its website, the company warns against homeowners attempting their own roofing installations without the proper training and equipment. The company emphasizes that common roofing tasks such as carrying heavy shingles and other materials up and down a ladder, maintaining a firm balance on a roof with a pitch that may be greater than the relatively modest 4/12 to 9/12 range, and obtaining the necessary permits are best left to the experts who have tackled such problems before. A professional roofer will carry tools such as air compressors and nail guns, will have the necessary safety equipment, will know how to obtain all the permits, and will have supplementary but vital tools like extension ladders which greatly increase safety.

The roofing company in Douglasville, GA can be contacted at the email address info@paramountroofingandconsulting.com for inquiries or the phone number (678) 535-2243 for a quick response during emergencies.
