

## **Processing Card Presents Guide On The Best Practices to Avoid Merchant Account Freezes**

*March 21, 2022*

March 21, 2022 - PRESSADVANTAGE -

California: Processing Card presents a new guide highlighting best practices to avoid merchant account freezes. The guide was compiled by the company's financial experts and published on Processing Card's website to help businesses avoid unnecessary damages. The full guide can be found [here](#).

A frozen merchant account will prevent the business from accepting any new transactions. Whenever income has been made prior to the account being frozen, it will be kept and deposited after the account is unfrozen. The freezing of merchant accounts is often perceived as the worst-case scenario for merchants because it prevents them from conducting business. This publication aims to address this concern for businesses and how they can prevent such situations.

According to Processing Card, the guide was produced after in-depth research by their experts. The primary focus of the guide is how to deal with merchant freezes. The new article further sheds light on merchant account freezes and their causes. The experts in the guide addressed some common queries regarding merchant account freezes. The guide was published as part of their regular research on merchant accounts. For more information on the best high-risk merchant processors, readers can visit their [page](#):

Account freezes can prove a major hassle for a business, it can even derail your operations entirely. Opening lines of communication with your processor can help you recover your frozen account. The publication discusses key tips to avoid account freezes in the future. It helps people understand more about frozen merchant accounts by explaining the common causes and to handle them," said Florence Carpenter, Founder and CEO of Processing Card's website.

Since the launch of the company, Processing Card has provided its review and comparisons services for small businesses and entrepreneurs. The site hosts an extensive library of online resources on Payment Processing Solutions for businesses. The Payment Processing Solutions advisor aims to help individuals, businesses and entrepreneurs by delivering information, advice, research, reviews, comparisons, analyses, and practical tips on best services and software for small business processing solutions, best processing services and merchant accounts. It also features the best mobile processing apps and software solutions that can apply to their company's operations. Readers can learn more about high risk merchant processors by visiting their page: <https://www.processingcard.com/blog/what-is-a-high-risk-merchant-processor/>.

Allen Leone, Product Manager of Processing Card, said, "Our mission is to provide small businesses with detailed research on credit card processing solutions and account providers so they can make educated decisions on the services and B2B software they opt for. Employing the right services can help businesses see clear results in the form of seamless transactions and excellent customer support." According to Processing Card, readers need to be informed on all the pertinent aspects of online payment processing solutions for business owners to choose from according to their particular requirements and preferences.
