

Dr. Mark Hickman Is Offering Affordable Vasectomy Reversal At An All Inclusive Cost In New Braunfels, Texas

March 28, 2022

New Braunfels, TX - March 28, 2022 -
Microsurgical Vasectomy Reversals from New Braunfels, Texas is offering affordable, all-inclusive vasectomy reversal surgery packages to men who want to feel the joy of fatherhood again.

Dr. Mark Hickman talks about the procedure and the misconceptions associated with its costs by saying, ?There is a prevailing sentiment that vasectomies are very expensive to reverse. Though there was a modicum of truth to this, it is not the case anymore. There are many methods to perform the surgery and they vary in technique, and consequently, cost. So there was an impression that lower-cost vasectomies are ineffective or, at worst, dangerous. However, this is not the case anymore. Vasectomy reversals, today, are within reach of anyone who displayed the responsibility at one point in their life to invest in a vasectomy as a tool for family planning in the first place. This has happened due to the progress in medical technology, microsurgery, in which I am an expert. After receiving my medical degree at the age of 23, I began my private practice in New Braunfels, TX in 1988 and soon after became an early pioneer of laparoscopic (minimally invasive telescopic) surgery. Soon, I began to teach minimally invasive techniques to other surgeons. Subsequently, I also invented several surgical instruments and have been awarded a US patent and

recognized as a contributor to several other important minimally invasive patents. When you come to me, your health and reproductive wellness are in safe hands. I have used the advancements in this field to make the vasectomy procedure as affordable and as comfortable as possible. Head over to our website to browse our many surgery packages and I?m sure you will find something that will work for your comfort level and budget.?

Dr. Hickman?s clinic offers two all-inclusive affordable options ? one for $3,300 and one for $4,200. Along with the microsurgical vasectomy reversal surgery, the $3,300 offer includes local anesthesia and an oral sedative. The $4,200 offer is performed under IV sedation and is administered by a Board Certified Anesthesiologist. Both microsurgical options are all-inclusive with no hidden fees. During the procedure, Dr. Mark Hickman performs a microsurgical repair of the vas deferens with a powerful operating microscope and fine nylon suture that is much finer than human hair, creating a direct and careful alignment of the lumen of the two ends of the vas, and a water-tight closure.

On his website, Dr. Mark Hickman says that his mission is to ?offer the lowest possible price for a vasectomy reversal so that all people feeling the call to have children can reach that goal affordably and ethically.? Readers can head over to the center?s website to find many testimonials from clients who underwent the surgery and were left immensely satisfied with the results. One of the testimonials says, ?We just wanted to extend our thanks for offering your services at a price that was attainable for us. You performed my husband?s vasectomy reversal in March of 2014. We conceived six months later! Jonah Aaron was born 5/14/15 and we are so very grateful that you answered the call of God to help bring new life into the world!?

Dr. Hickman serves patients from all over Texas, Louisiana, Oklahoma, and across the USA. His clinic can also make living arrangements for out-of-town patients by offering them discounted hotel rates for an overnight stay. There are certain pre-op requirements for patients that have been in effect for the last couple of years, since the start of the coronavirus pandemic. Current pre-op requirements for the clinic?s affordable vasectomy reversal surgeries for all patients coming to the clinic for surgery are a negative PCR or antigen test within one week of surgery, or documented positive PCR or antigen test at least 30 days before surgery, or documented completion of a vaccination course (usually two doses) at least 15 days before surgery.

Microsurgical Vasectomy Reversals can be contacted at the phone number (830) 660-0600 or the email address drhickman@micro-vas-reversals.com.
