March 23, 2022 -
March 2022: HP Coatings presents a new guide that discusses basic car maintenance tips. The guide was compiled by the company?s automobile experts and published on HP Coatings? website to highlight simple and important aspects of car maintenance. The full guide can be found here.

A car should be checked regularly even if it has just been serviced, cleaned, and handled well. It is essential to perform regular car checks and basic maintenance to ensure the vehicle stays in good shape and doesn?t stall on the road. This publication addresses the basic issues a car can have if not regularly maintained.

According to HP Coatings, the guide was produced after in-depth research by their experts. The guide's primary focus is the basic car maintenance tasks that will keep a vehicle in good condition for any journey. The new article further sheds light on different components and functions of the car that need to be maintained. The experts in the guide explained how to check and maintain the tires, oil, windscreen, and battery to prevent any issues on the road. The guide was published as part of their regular research on car maintenance.
