# Cosmetic Dentist Improves San Diego Community?s Smiles

*March 28, 2022*

March 28, 2022 -
The Art of Dentistry, based in San Diego, CA, is reaching out to the wider community to share information about the range of cosmetic dentistry services they are providing. The talented team at The Art of Dentistry also offers other dental services to accommodate everyone?s dental needs, including but not limited to general dentistry and implant dentistry.

Merri Turner from the Art of Dentistry says, ?Everybody knows that our smiles can play a huge part in our self-esteem and our confidence. If our smiles are affected by some reason or another, correcting the issue as soon as possible is important. Reaching out to a reliable cosmetic dentist can help you fix your smile, and in turn, increase your confidence in social situations, improve functionality and increase your self-esteem.?

The team at the Art of Dentistry have developed a one-of-a-kind formula for creating smiles. They follow a unique 7-Step Process to ensure that their patients leave with a perfect smile. The dental clinic combines advanced technology and a philosophy of collaborative treatment to make sure their patients receive dental care that is effective, comprehensive and precise.

The San Diego cosmetic dentist uses advanced CEREC technology, which allows them to complete tooth restoration jobs in just one visit. Patients looking for an efficient and less time-consuming solution for restorations should consider looking into CEREC crowns, bridges and veneers. In addition to being a time-efficient method, CEREC also provides superior results without the need for multiple appointments to be scheduled. Turner says, ?At The Art of Dentistry, we respect how valuable your time is. With us, you don?t have to waste your time with inconvenient traditional solutions that involve long waiting periods, uncomfortable impressions and temporary crowns. We offer our patients a one-and-done visit with the same high-quality care.?

The Art of Dentistry also offers Invisalign to help patients achieve a more beautiful smile with straighter teeth without any invasive procedures involved. Convenient and comfortable, Invisalign® allows patients to eat normally, clean their mouths easily and even remove the device easily whenever needed ? all comforts that traditional braces do not offer.

Turner says, ?Dr. Addleson, Dr. Landau and the rest of the team here at The Art of Dentistry are all focused on ensuring that you, the patient, are comfortable throughout your visit. Dental procedures can be stressful, so we do everything to make your visit as stress-free as possible. With a focus on collaboration, we believe in working together with our patients to provide them highly specialized care no matter what treatment or procedures they may require.?

The team at The Art of Dentistry are truly concerned about their patients' dental wellbeing and ensure that they carry out their duties with great care. This has earned them the admiration of their patients, as is made evident by the clinic?s high rating on the Google platform. Carolyn Couch says, ?My husband and I have been going to The Art of Dentistry for over 20 years. Yes, a bit more expensive, but worth having the most up to date treatments, exams, timeliness, friendliness and best quality of work done on our teeth. We live in Texas and make yearly trips to visit family and get our dental work done! Now that's commitment for the right reasons.?

Kelley King writes in their review, ?I have been going to The Art of Dentistry for over 10 years! They are the best in San Diego! The doctors are phenomenal, the hygienists are so thorough and the front desk staff is always so helpful! Everyone is kind and warm. I have had all kinds of work done ? cavities, crowns, teeth whitening, and of course, cleanings. All of the services were excellent, and the quality of work is beyond compare. If you are looking for a well-rounded dental office, this is your place! I recently moved out of state, so I hope I can find a dental office as wonderful as The Art of Dentistry has been to me.?

The Art of Dentistry?s official website contains more information about the clinic, its team of doctors and the

services they provide. Merri Turner encourages both new and existing patients to get in touch, either via phone or email. The Art of Dentistry also maintains a social media presence on Facebook where they frequently post updates, share media and stay in touch with their community.
