Car Service Now Takes San Diego Passengers To The Airport

March 24, 2022

Encinitas, California - March 24, 2022 -
La Mesa, CA based Five Star Transportation Services is pleased to announce that passengers may now use their limo service to travel to the airport in comfort. Since the company offers a wide range of vehicles to choose from, this means that clients may personalize their transport to their individual requirements.

Five Star Transportation Services is just as capable of taking group charters as they are single clients and small families, so clients may select between a sedan, SUV and so on as necessary. The company?s services are available around the clock, and they are designated an essential business, so clients may expect a vehicle and driver to be available at virtually any time they are needed. Five Star Transportation Service also employs highly skilled drivers who each have an unblemished safety record behind the wheel ? the company accepts nothing less. Furthermore, they perform background and licensing checks to ensure the security of all passengers during any trip.

However, the company states that their services go far beyond simple pick-up and drop-off. For one, their platform enables clients to make a reservation either via the company's official websites or through designated apps (available on both the App Store and Google Play). A quote can be requested through the

website, for instance, by filling in all relevant details, such as pick-up/drop-off dates and times as well as how many passengers are expected and how many pieces of luggage they will have with them. Five Star Transportation Services also allows clients to indicate whether they require a round-trip service or have any additional stops to make along the way.

Once a reservation is made, they will receive a 24-Hour email confirmation (prior to pick-up), followed by a 2-hour email that includes the chauffeur?s contact information. Five minutes prior to pick-up, they will receive a text (with the chauffeur?s information included here as well). During the trip to the airport, passengers are welcome to make use of the vehicle?s cell phone chargers and complementary water bottles.

If required for curbside pick-up, chauffeurs will monitor flight status and call or text the client once their flight arrives. After picking up their luggage, the client may proceed to the curb and inform their chauffeur via call or text that they are ready to be picked up. Alternatively, the client may have their chauffeur hold a greeting sign at the gate and assist with carrying luggage to the vehicle.

A client, Lorraine A., shares that the company proved to be of massive use during an emergency and was able to provide them with a suitable vehicle on short notice. Their 5-Star Google review says, ?My husband, one-year-old, and I were traveling across the country and had to book a car service last minute (while we?re at the airport). We found out our vehicle wasn?t big enough for all eight of our large check ins, pack ?n play, crib, car seat and four carry-ons. I?d give this service and Michael a 10/5! Hands down, everything was seamless! From booking over the phone last minute in the nursing room with a crying baby to confirmation email, pick up and car ride. Everything was smooth, instant and easy! Super straightforward! And the vehicle was nice, comfy and clean! And Michael was such a wonderful, friendly, helpful and warm driver! I would definitely use them again! Definitely a business to bookmark! They drove us from the SD airport to Chula Vista!?

Rob Z., another customer who needed to visit the airport, says, ?Our driver, Mike, was on time (actually a bit early). His BMW was immaculate! He?s a true professional and provided us with a relaxing early morning drive to the airport. This was our first time using Five Star; it won?t be our last. Costs a bit more than taxis or ride share services, but well worth it. As I like to say, price alone is meaningless!?

Five Star Transportation Services offers a comprehensive degree of customer service support that is designed to ensure their clients need not concern themselves with transport at all on the day of their flight. To learn more about san diego car service to airport, clients are welcome to contact Five Star Transportation Services directly via phone or email. A representative will guide them through every aspect of the company?s professional car service.
