

Portland Roof Repair Company Becomes Owens Corning Preferred Contractor

November 05, 2015

November 05, 2015 - PRESSADVANTAGE -

Dial One Roofing, a roofing business in Portland, OR, has announced that they have been given Preferred Contractor status with one of the largest manufacturers of roofing materials in the country. The Portland roof repair company has been officially recognized by Owens Corning. They are very proud of this status and feel it shows their dedication to quality of service.

"We are proud to be an Owens Corning Preferred Contractor and look forward to soon achieving their Platinum Preferred Contractor status as well," says Wade Henkelman from Dial One Roofing.

The company has been providing roofing and roof repair services across the Portland area for many decades and they have come to be known as the go to service for people with roof issues. They believe in preventive measures as much as in reactionary measures, which is why people can come to them whether they have an existing roof problem or not. Now that they are an Owens Corning Preferred Contractor, even more people have been sent their way.

One of the things that sets the company apart from the rest of the competition is their focus on roof

maintenance, as well as roof repair. The majority of contractors in the Portland area will always recommend that an entire new roof has to be installed. Dial One Roofing feels that this is often unnecessary, as repairs would be sufficient. "Too often, we are contacted by people who want to get a quote on a roof replacement, because they have been told by a different company that they need one," adds Wade Henkelman. "When we come out to give them a quote, we quickly see that some simple repairs are all that are needed. This saves the customer both time and money."

The company encourages everybody to give them a like on Facebook through <https://www.facebook.com/Dial-One-Roofing-Inc-233876993297675/>. This will give them an opportunity to ask questions about their service, as well as to be kept up to date with developments, special offers and more. Additionally, it means that they can connect with other people who have used Dial One Roofing in the past.
