

Blog Post Provides New Information About Bespoke Fitted Wardrobes

November 10, 2015

November 10, 2015 - PRESSADVANTAGE -

4 Wardrobe, a business in Twickenham, London, United Kingdom, has released new information about bespoke fitted wardrobes. In a brand new blog post, they addressed the reasons why it is better to choose bespoke fitted wardrobes over standard units. The post can be accessed through <http://www.4-wardrobe.co.uk/five-reasons-to-choose-bespoke-fitted-wardrobes-over-standard-units/>.

"Bespoke fitted wardrobes have numerous benefits over their standard, mass produced, freestanding counterparts," says Michael Frick from 4 Wardrobe. "In fact, there are so many benefits that it would be almost impossible to address them all. However, we have chosen the five biggest benefits and released some further information about those, explaining to people why their choice should be clear."

The five reasons outlined in the new blog are better usage, customization options, better organization, stress free maintenance, and value for money. These benefits are in fact supported by other experts in the field, and by interior designers in particular. "The advantages of fitted furniture over free-standing units vary from the people who simply want to plan their own individual design, look and finish, different to that of their friends and neighbours, to those restricted by space who want to make the most of the available room they have,"

says Michael Bond, a well-known interior designer.

4 Wardrobe is one of London's leading manufacturers and fitters of bedroom furniture. They are highly respected by both customers and other businesses alike and people have recognized them as the go-to source for the best quality custom fitted wardrobes. "My bedroom was of such an awkward size," says one happy customer. "I really didn't think I could do anything with it. After consultation with 4 Wardrobe, however, I quickly saw how wrong I was. Now, I have space to put all my belongings and my room actually looks bigger."

As an industry leader, 4 Wardrobe regularly releases blog posts and other pieces of information that serve as advice, information and guidance to consumers and businesses alike. Their latest post is already proving to be very popular and has encouraged a range of people to choose fitted wardrobes over standard units. It is expected that this trend will continue.
