David Finke, co-owner of Huntley Disposal, says, ?Whether you?re a homeowner starting a remodeling project or a contractor in need of long-term containers, we?re confident we have the bin for all your dumping needs. With our equipment, experience, and amazing staff, look no further than Huntley Disposal for your dumpster rental needs in Kansas City Missouri and neighboring areas. We?ve worked with dozens of local businesses, contractors, homeowners, school districts, and individuals, and we work closely with the Kansas City landfill to ensure all dumping is done by the book.?

Huntley Disposal has developed a reputation of providing the most affordable dumpster rental in Kansas City. They work directly with homeowners and other property owners with small residential roll off requirements for any occasion. They can provide dumpster rental for practically all kinds of junk hauling needs, such as: garbage removal; refrigerator disposal; foreclosure clean outs; mattress disposal; yard waste removal; construction waste removal; appliance removal; trash removal; furniture removal; television disposal and recycling; hot tub disposal; e-waste disposal; and more. Those who want to know more about Huntley Disposal can visit their Facebook page at https://www.facebook.com/Huntleydisposal.

Huntley Disposal has different sizes of roll off dumpsters. The 10 yard dumpster measures 12 feet in length, 7 feet in width, and 3.5 feet in height. It can hold up to 10 cubic yards of material and it is suitable for projects, such as a small basement or garage clean out; yard debris; removal of 1500 square feet of roof shingles; removal of a 250 square foot deck; or construction of a small kitchen and bath.

The 15 yard dumpster measures 12.5 feet in length, 7 feet in width, and 4.5 feet in height. It can hold up to 15 cubic yards of material and it is suitable for projects, such as: cleanup for an attic, a small basement, or garage; flooring and carpet removal in smaller homes; removal of 1500 to 2000 square foot of roof shingles; and removal of 100 to 300 square feet of deck.

The 20 yard dumpster measures 18 feet in length, 8 feet in width, and 5 feet in height. It can hold up to 20 cubic yards of material and it is appropriate for projects, such as: cleanup for an attic, large basement, or garage; flooring and carpet removal for bigger homes; removal of 300 to 400 square foot deck; or removal of 2500 to 3000 square foot of roof shingles.

The 30 yard dumpster measures 20 feet in length, 8 feet in width, and 6 feet in height. It can hold up to 30 cubic yards of material and it is appropriate for projects, such as: a new home construction; a major home addition; garage demolition; or replacement of siding or windows of a small to medium sized home.

The 40 yard dumpster measures 20 feet in length, 8 feet in width, and 8 feet in height. It can hold up to 40 cubic yards of material and it is relevant for really big projects, such as: construction of a large home; and various commercial construction projects.
