April 19, 2022

Denver, Colorado - April 19, 2022 - PRESSADVANTAGE -

Online martial arts supply store MyKarateStore.com has announced that it is having a Mother's Day sale in May. A spokesperson for the company said that they are "very excited to announce the Mother's Day sale as it will give all of its valued customers who are interested in martial arts, sword fighting, sparring, training, and other high-intensity sports a chance to pick up the items they have always wanted for a hefty discount."

During the upcoming sale, one of the store's most popular items, foam covered padded swords, can be bought at a discount of \$5 off with the coupon code "5OFF". The padded swords named "Combat Sword - vinyl padded" weigh 2 pounds, come in two tipped colors, red or blue, and come in four lengths, 18" (small), 24" (medium), 36" (large), and 43" (extra-large). The lightweight competition swords are made of a PVC core for soft flexibility and are covered with sturdy black vinyl.

MyKarateStore.com also has several other padded swords for sale on its website. The Foam Daito is a light practice weapon with a hardwood core covered with a 1/8" thick black foam skin that comes complete with a

four-lobed plastic guard (tsuba) and is perfect for beginning kata training. It weighs 2 pounds and comes in two sizes, 28" (small), and 40" (large). The store also carries the Action Bat which is a PVC core practice weapon that is covered with sturdy black vinyl and is balanced for optimal use. The Action Bat comes in three different sizes that simulate different weights of weapons, from short swords and sticks to long two-handed weapons. The Action Bat is perfect for sparring against each other, or training disarms.

The online store's spokesperson also talked about the recent renewed interest in the art of sword fighting by saying, "We always get a surge of interest in our store's products around the time when a pop culture artifact captures the attention of the zeitgeist and brings this age-old form of self-defense back to public consciousness. For example, the upcoming release of the new Star Wars limited series, Obi-Wan Kenobi, has sparked an interest in children who want to replicate the excitement of using a lightsaber like their favorite heroes. Another example is the recent success of the live-action version of the animated classic Disney movie Mulan which captured the richness of Chinese culture so well that it ignited interest in foam-padded swords among kids. When the children have their hearts and minds set on a toy that they want at all costs, parents are helpless and will try their best to find the safest versions for them, just so that their children can play out their fantasies in a controlled and harmless manner. If they come to us, they will find that their needs will be met with top-of-the-line foam-covered padded swords that have been designed in mind for a younger demographic and are completely safe to handle by children starting at a reasonable age. So, if you are a parent struggling with the same conundrum, visit MyKarateStore.com to find the perfect gift to hand over to your young ones. If you are a cosplayer or martial arts aficionado, we also have plenty of other interesting items in our online inventory and some are bound to be what you have been looking for."
