

Xpress Exterior Design: Baltimore Roofing Company Prioritizes Team Training For 2022

April 12, 2022

April 12, 2022 -

Baltimore, Maryland - Xpress Exterior Design, a Baltimore, MD based roofing company, is pleased to share that they will be focusing on team training in 2022. The roofing company takes investment in their employees very seriously, and they make it a point to ensure that customers always have the best experience with highly trained and knowledgeable sales representatives and technicians. In order to ensure that this is the case, Xpress Exterior Design has implemented mandatory weekly meetings to ensure that their entire team is equipped to uphold the company?s values in every aspect of their service.

The company offers a wide range of services across the Baltimore metropolitan area, from roof repair to roof and window replacement along with siding replacement, gutter installation and even doors. Since they offer such a wide variety of services, they prioritize employee training to ensure that every employee is able to assist customers with any given area. Xpress Exterior Design has become one of the most trusted roofing companies in Baltimore, with customers leaving multiple 5-Star reviews of their services.

Nicholas Cline says about their experience with the company, ?Logan and the fine folks at Xpress Exterior Design: Baltimore Roofing Company were great to work with. For a better price than we were quoted from

two of their competitors, we got prompt, quality service. I will also add that Logan was very honest and knowledgeable, and we never felt that he tried to upsell us. This was not an insurance claim so this roof replacement was coming entirely out of my own pocket. I would happily use Xpress Exterior Design again for any exterior or window needs in the future.?

Another top-rated review from a pleased Baltimore homeowner identifies Xpress Exterior Design as their preferred roofing company. They explain, ?Xpress Exterior Design is my go-to roofing company in Baltimore for my real estate clients, as well as my personal roofing needs. I have been very impressed with Logan, who is always responsive to my calls and truthful in his roofing inspections. I've dealt with roofing contractors for 10+ years in the real estate industry. It's refreshing to work with a company where their motto is literally ?trust, integrity and quality.? Their work has been nothing short of exemplary for my clients? home. I would definitely recommend Xpress to anyone thinking of replacing their roof.?

Xpress Exterior Design takes pride in being locally owned-and-operated. As a local company, they know exactly what the community needs, and they make it their job to keep track of the evolving requirements of homeowners in the area. The company is owned by Tinos and Melissa Marketis, and they started Xpress Exterior Design in order to meet the need for a trusted, reliable and dependable roofing contractor in Baltimore. With a combined total of over 50 years experience in roofing, Xpress has managed to become a household name trusted by homeowners in the area. Their commitment to quality workmanship and educating their customers means they will always aim to satisfy their Baltimore clients. They believe that a project is not finished until a customer is happy, and they live and work under this philosophy.

The roof is one of the most important parts of any home due to the fact that it protects the family, belongings and interior of the building under it. Without a sturdy, expertly installed roof, any building becomes vulnerable to the elements, which means rain, hail, snow and any other acts of nature are free to cause serious damage to the building.

?Every day, your roof works to protect your home from these elements, including providing shade during the summer months,? says the company. ?Over time, this prolonged exposure to Mother Nature can take its toll on your roof, causing it to wear down. While violent storms can cause immediate damage to your roofing system, natural wear and tear to your roof is a part of home-ownership. It is important to maintain your roof as small repairs are necessary, as your roof is only as strong as its weakest link, or shingle. A single gap can cause your roof to leak, and what starts as a small leak, can quickly exacerbate into a significant repair or require replacement if not quickly taken care of.?
