April 13, 2022 - PRESSADVANTAGE -

April 2022: Automatic Growth presents a new article that explains how businesses need to manage backlinks. The report, published on Automatic Growth's website, was compiled by the company's link-building experts. The report was released to help websites improve their ranking.

Google still relies heavily on backlinks as a ranking factor. A site's authority and ranking are based on the quality of its backlinks. Links remain one of the most important aspects of the web, and backlinks are one of the most important factors that drive a site's ranking and search visibility. The publication analyzes the importance of backlink management. The experts in the report explained standard backlink management to help websites rank better.

According to Automatic Growth, the company's experts compiled the guide after thorough market research. The purpose of the publication was to simplify how acquiring quality do-follow backlinks, managing backlinks, and tracking live links can improve a site's performance. The guide described the different types of backlinks to give a clear understanding of link building in SEO. The report uncovered the steps to execute the link-building strategy correctly. The report found four key steps to effective backlink management that

websites need to commit to.

Since its inception, the link-building agency Automatic Growth has provided link-building services for businesses. The site also offers information, advice, research, guides, and analyses for helping businesses understand more about link-building and how it can improve online traffic. The report was published as part of their regular research on backlinks for their readers.
