

Atlanta Carpet Cleaning Company Helps Homes Get Back In Shape

April 20, 2022

April 20, 2022 -
Georgia based Go Carpet Cleaning would like to reach out to Atlanta homeowners who may be in search of a reliable carpet cleaning company. With the spring season in full swing and spring cleaning being at the top of many homeowners? priorities, Go Carpet Cleaning is helping their community get their homes back in top shape through their fast and reliable carpet cleaning services. From their Atlanta location, they offer unmatched cleaning services.

?At this point you may be wondering: what?s the proper way to clean my carpets without damaging them,? a company spokesperson says. ?At the same time you?re thinking about the hours you sacrifice to do cleaning. What you really want is to spend time with your family, friends, watch your favorite Netflix shows, go for a walk or simply kick back to relax. We know that you?re facing this great dilemma. You are definitely part of the majority of people: they do not have the time or the proper technique to clean, maintain and to care for their rugs. You want them to look like new, at all costs, you bet on retail products that seem to be aimed at cleaning carpets and in the end end up leaving toxic residues on the fabrics.?

It is important to have carpets cleaned regularly as they can easily accumulate large amounts of dirt in a

relatively short period. Most people try to clean their carpets using vacuum cleaners, which might make the carpet look slightly better but are also known to store a large amount of germs in their engines. It is therefore recommended that homeowners clean their carpets at least once every 12 - 18 months with professional equipment. Professional carpet cleaners have the tools and the knowledge to keep all kinds of carpets clean without the drawbacks that come with some commonly available solutions. Go Carpet Cleaning is one such company, and their services have helped dozens of homeowners around their location in Atlanta, GA.

There are certain steps a homeowner can take to clean their own carpets to a reasonable degree, however. Go Carpet Cleaning recommends regular vacuuming, at least once a week. This gets rid of dust and extends the life of the carpet. Using a warm, damp cloth to gently soak up drink spills is considered the best way to clean up liquids without damaging the carpet. Finally, using retail carpet cleaning products to clean a carpet can damage it greatly, which is why it is recommended to use such products sparingly in order to improve the longevity of the home?s carpets.

A number of Atlanta homeowners have left excellent reviews of Go Carpet Cleaning on their Google profile. Dustin Strobel says in a 5-Star review of the company, ?Gal with Go Carpet Cleaning was nothing but amazing. We called them on Thursday morning to clean my store's carpet, and were able to get services scheduled the next morning. He showed up on time and got right to work. At all times, he was professional and courteous. I am very happy with the results and wish I had taken some before pictures so you could see them. I would and will be using him again, and would recommend for home and business carpet cleaning. Plus it feels good to support a small local business.?

Another customer, Lena, says in their review, ?Gal?s work was awesome! He was very professional and thorough with explaining his process. recommendations and pricing. My carpet was heavily soiled, and he was able to remove stains I didn?t think would ever come out, especially the two large black ink stains my grandchildren made. I recommend Gal?s services to anyone needing their carpet cleaned, especially deeply cleaned. Thank you again Gal, and if we decide not to go with hardwood flooring, we will definitely be booking you again.?
