

New York City Estate Planning Lawyer Kristine M. Carranceja-Gurski Explains the Role of an Estate Attorney

April 20, 2022

April 20, 2022 - PRESSADVANTAGE -

New York City estate planning lawyer Kristine M. Carranceja-Gurski of the Matus Law Group releases a new article (<https://matuslaw.com/estate-planning-attorney-new-york-city/>) explaining the role of a New York estate planning attorney. According to the lawyer, it is not easy to accumulate assets or estates. Estate planning is basically planning for the future and ensuring that an individual's estate is distributed according to their wishes in the event they pass away.

According to the New York City estate planning lawyer "Estate planning is not just a dry set of legal directives and forms ruled by the law. It is the heart and soul of the culmination of a lifetime's plans. At The Matus Law Group, we treat it as such. Regardless of legal planning complexities, we understand the momentous responsibility you have entrusted us in designing and planning a tailored estate plan."

The lawyer explains that estate planning includes planning for a special needs child's future and care through

trusts. The trust may be able to help legally protect the estate and ensure that the child has access to all public benefits. They will be eligible for Supplemental Security Income benefits once the child turns 18.

Estate planning lawyer Kristine M.Carranceja-Gurski mentions that in New York, estate planning requires that a will be created. This document outlines a person's wishes regarding how their estate should be managed after they have passed. The probate process will be lengthy and complicated without a legal will.

Attorney Carranceja -Gurski also mentions that a will is an essential tool for estate planning. A will is a way for a person to leave his or her financial assets and real property to those they choose. The person may also make a will to determine who will be the legal guardians of your young children.

Attorney Carranceja Gurski adds that although a will can be an excellent starting point, a trust could sometimes be a better option. Trusts offer tax benefits as well as asset and estate protection. These features may not be possible in a will. According to the lawyer, a trust can be used for estate planning and tax benefits.

Lastly, the estate planning lawyer emphasizes the importance of having an experienced lawyer in estate planning matters. An experienced attorney can help clients understand their rights and responsibilities, as well as guide them in making the right decisions.
