

Plant City Florida Patient Thanks WhiteSands Alcohol and Drug Rehab

April 22, 2022

Plant City, Florida - April 22, 2022 -
Plant City, FL - Todd entered rehab in Plant City, Florida after struggling with addiction and immediately felt at ease knowing that many therapists and counselors at the facility were once addicts themselves. The treatment center, WhiteSands Alcohol and Drug Rehab, employs specialists that have battled and overcome addiction themselves. They are living proof that life is full of possibilities when people become dedicated to sobriety. In a recent five star Google review, Todd thanked WhiteSands? staff for helping him find confidence in his recovery journey.

?Many of them are in recovery and have gone through the same thing,? he said. ?They are very sympathetic to, an addict, who is just trying to get well.?

Patients at WhiteSands have access to all levels of care and a full continuum of treatment options eliminating the stress and hassle of moving from facility to facility for each tier of treatment. All staff members are cross-trained to deal with addictions and substance-related disorders.

WhiteSands? founders Garry Jonas and Joseph Ducey recognized a need to provide more in-depth and individualized treatment to meet the critical needs of patients. They consistently provide far more than the industry standard requires. Truly individualized treatment at WhiteSands means smaller groups and a high staff-to-patient ratio despite the narrowing of profits, as well as individual and family therapy five times per week, whereas competitors offer one hour per week.

?Without the help of the therapist and staff, I would still be addicted,? said Todd.

The Plant City treatment center continues to raise industry standards with its investment and dedication to the recovery process. They have found that emphasizing patient comfort and access to luxury amenities has improved treatment outcomes. These unique amenities include large private rooms with satellite television and private bathrooms. In the evenings, patients are allowed access to electronic devices. The state-of-the-art athletic complex includes a pool, basketball and volleyball courts, yoga classes and personal training.

Founder Garry Jonas said, ?the strength of our amenities and the overall quality of life at WhiteSands are of significant importance to our leadership team and staff. We had a vision to create a treatment center that treated patients as individuals while also providing many of the comforts of their home environments.?

During treatment at WhiteSands, patients learn that while in recovery, every day presents a new opportunity to be the best version of themselves and to work toward reaching their goals. Personalized treatment programs encourage small yet impactful daily practices that support sobriety goals and are pivotal in life-long recovery.

Hundreds of patients like Todd have shared their recovery success in 5-star Google reviews. WhiteSands continues to receive recognition for its dedicated efforts in transforming addiction treatment, including being rated the number one addiction treatment center in Florida in 2020 and 2021 by Newsweek magazine.

?If you are unsure of your decision to stop using or scared to stop. These are the people you need on your side,? said Todd.

Anyone in need of help for substance use can speak to a treatment specailist anytime by calling (877) 640-7820. WhiteSands addiction specialists can assess patient recovery needs and help them get the addiction treatment that provides the best chance for their long-term recovery. Whitesands is a crypto-friendly addiction treatment network.
