People Need A Licensed Arborist, Monster Tree Service Tells Why

April 25, 2022

April 25, 2022 -
Monster Tree Service, which provides tree removal services in Hilton Head Island, shares important reasons why it is necessary to hire only licensed and insured arborists.

The Hilton Head company says that client protection is their number one priority. The licensed Arborist Near Me ensures that they are fully compliant with the Occupational Safety and Health Administration (OSHA) Work Safety rules. They also adhere to the Department of Transportation's guidelines for safe vehicle operation and all statutes and regulations issued by each state to which professional contractors must adhere. This way, they can provide only the best for their clients.

Monster Tree Service also ensures that its crews are trained in Tree Care Industry Association (TCIA)-approved safety programs, representing the best practices and training in arboriculture.

As a professional contractor, Monster Tree Service ensures that they are properly licensed to perform tree service at all levels and difficulties. "At the client's request, each location can provide a copy of our license for review and information. Each location is also fully insured and carries millions of dollars of Liability Insurance and Worker's Compensation insurance, general umbrella policies, and full vehicle and equipment insurance," they add.

Besides being licensed, Monster Tree Service is also an insured arborist. "Insurance protects our clients while we are working on their property. If a crew were to drop a tree branch on their shed, break a window, damage a deck, or any other significant damage caused by our crews while performing the services, the location's insurance company will pay the repair bills," they explained further. The Tree Service Company can provide a Certificate of Insurance almost always within 24-48 hours upon request.

Furthermore, Monster Tree Service promises customers that they are enforcing all necessary safety

precautions on the job. Monster Tree Service's concern is the health and safety of its clients and personnel. They say, "We take our customers' and staff' health extremely seriously and make every effort to ensure their safety.

The company is capable of completing almost any tree-related task. They provide tree removal, tree/shrub pruning and trimming, stump grinding and removal, land clearing, cabling/bracing, hazardous tree evaluation, deadwooding, and thinning. Whether it is a large-scale project such as tree and stump removal or a smaller-scale operation such as pruning and trimming, the Monster Tree Service crew is here to assist

For more than a decade, Monster Tree has aimed to collaborate with homeowners to make healthy, strong, and attractive trees accessible to everyone. Additionally, the tree service provider provides no-obligation quotes. Through their website, https://www.monstertreeservice.com/, customers can immediately get a free estimate

Clients may connect with Monster Tree Service by calling (888) 744-0155.
