In addition to offering excellent dumpster rental services, 402 Container runs the 402 Hunger Cleanup project, an initiative which aims to help clean up neighborhoods and give back to the communities the company serves. While their business objective is to help their community get rid of unwanted items, their personal mission is to help keep their community fed as well. Residents may dispose of trash in a 402 Container for 20 canned goods. The project works by having members of the community identify what they can donate or recycle, dropping off 20 canned goods and then dropping off said goods at the designated location. Donators can then unload their waste at a 402 Dumpster and go on with their business while the community?s less fortunate are provided for through the donated canned goods.

For more information on both their dumpster rental services and their community events, visit the company?s Facebook page at https://www.facebook.com/402Container. More information can be found on their website as well, which additionally offers a fast booking facility.
