

# **Dumpster Rental Service Available To All Scranton Customers**

*April 28, 2022*

April 28, 2022 - PRESSADVANTAGE -

PA based AP Container Inc is pleased to share that their dumpster can be rented by customers in Scranton and the surrounding areas. When a project is expected to generate a large amount of junk or detritus, there are few solutions as simple and convenient as a dumpster rentals, and AP Container Inc is ready to provide the most rugged, practical dumpsters their community could ever need.

According to the company, customers can rid themselves of an incredibly large variety of items via their dumpster rental service. Since AP Container Inc first opened their doors, they have disposed of televisions, furniture, cupboards, cabinets, assorted wood, trash, household appliances and much more. They can even handle heavy items such as hot tubs and refrigerators, and customers can expect everything they get rid of to be disposed of in a responsible manner that is in line with local regulations and industry standards.

Customers can order a dumpster quickly by visiting the company's official website and navigating to their list of services (which offer a brief explanation of their dumpster's specifications, such as size and capacity).

Since many customers tend to underestimate how big their dumpster should be, AP Container Inc offers the sizable 20-yard dumpster in two rental options: for two days or seven days, as the customer sees fit. See more here: <https://www.apcontainer.com/>.

In addition to booking online, customers are welcome to reach out to the company's representatives by phone if they want a quick quote. They may also use the opportunity to clear up any further inquiries.

AP Container Inc understands that sound customer service should always be at the core of all their activities. While ordering a dumpster is often a simple endeavor, the company shares that certain customers may need a more personalized service due to certain constraints or concerns regarding their project. Here, where other dumpster rental providers may simply claim to have no responsibility since it is not a part of their services, AP Container Inc firmly encourages their customers to reach out to one of their representatives to discuss the matter at hand.

The company has helped customers who were unsure they had the space to accommodate a dumpster, had valuable property in the immediate area that they were concerned would get damaged, wanted to get rid of junk they believed may not be acceptable under the company's terms and more. Certain customers may even only be able to accept dumpsters onto their property outside regular operating hours ? or outside the company's service area. Whatever the problem may be, AP Container wants their community to rest assured that their experts will always be ready and willing to help.

Notably, reviews and feedback for the company are quite representative of the results of this approach. Customers frequently praise AP Container Inc for their drivers' punctuality, their general team's responsiveness (especially where concerns are raised) and even their professional conduct overall. Find them on Facebook for more: <https://www.facebook.com/apcontainer>.

AP Container states, "We want nothing more than for you to make us your partner whenever you have junk or trash that needs to be removed. Effective junk removal, especially at scale, takes a degree of expertise that homeowners or businesses are unlikely to have ? and even less likely to want to bother themselves with. Fortunately, you don't have to worry anymore. Just take a look at the dumpsters we offer through our website, direct us to the site you want a unit to be delivered to, and we will handle the rest. At no point of the process should ordering a dumpster cause you any stress. Let us take care of everything so you can make sure your project is finished on time."

The company serves customers throughout Scranton and beyond. If there are any concerns that the customer's location is too far away from the company's service area, AP Container Inc encourages them to

get in touch to confirm. In most cases, the company will be able to accommodate such routes for a minor fee.
