

Off-Island Dental Offers Emergency Dentistry Services For All

April 28, 2022

April 28, 2022 -
Bluffton, SC - When something unexpected strikes, clients in need of help need not go far as Off-Island Dental has its doors open for Emergency Dentistry cases.

Off-Island Dental caters to the most common dental emergencies. These include toothaches which sometimes include swelling and require urgent attention. Chipped or broken teeth are also an instant emergency care case. Broken teeth require professional help and may need treatment that can only be done in a clinic.

Those with broken crowns or fillings also need emergency dentistry care to avoid further damage. A temporary fix will not last long; thus, a visit to a professional like Off-Island Dental is necessary to restore it. Broken orthodontics may also be painful, which is why a visit to a dental clinic should be scheduled immediately. The presence of mouth infections, swelling teeth or gums, bleeding, or pain are also signs of seeking immediate dental care.

Off-Island Dental is equipped to handle any of these dental emergencies. In addition, the dental clinic provides a wide range of treatments, ranging from routine prophylaxis to more complex oral surgery. Throughout the years, the dental company has been known for its excellence as a family and cosmetic dentist in Bluffton, Hilton Head, and Okatie, South Carolina.

General Dentistry is one of its most popular services. Their general dentistry service begins with a dental examination. The dentist carefully examines the client's teeth and gums for symptoms of tooth decay, gum disease, and other potential health concerns. It is often performed using dental x-rays, which enable dentists to examine what is occurring under the surface of the teeth and gums.

The general dental procedures they perform include composite fillings, same-day crowns, complete and partial dentures, teeth whitening, and TMJ therapy. Additionally, they provide various cosmetic dental services, including microabrasion, veneers, and clear removable braces. Additionally, they provide specialty dental treatments like dental implants, dental crowns, dental bridges, root canal therapy, oral surgery, oral hygiene, and gum disease therapy.

With years of experience in the field, Off-Island Dental guarantees dental proficiency. Their dental professionals are constantly expanding their knowledge of dentistry, technology, and treatments to give patients the most advanced treatment options.

Off-Island Dental provides convenient online scheduling via their website, https://www.offislanddental.com/. Additionally, they provide a downloadable new patient form that clients may complete before visiting the facility.
