

Dr. Mark Hickman Is Helping Patients Who Want To Undergo The Procedure To Reverse A Vasectomy

May 09, 2022

New Braunfels, TX - May 09, 2022 - PRESSADVANTAGE -

Dr. Hickman from Microsurgical Vasectomy Reversals in New Braunfels, Texas is helping patients who've had a vasectomy, reverse the procedure so that they can get the chance to have children once again.

Dr. Hickman talks about the joy that he finds in his work by saying, "Fatherhood is a wonderful thing. You get to nurture and care for a soul who will eventually walk in your footsteps, take your teachings to heart, and hopefully carry on your traditions. There is no joy purer and more magical than watching years of hard work as a parent pay off and manifest itself in a strong and beautiful child who manages to find their own way through life and grow up into a successful adult. I wish I could bring this joy to every man on this wonderful planet as I feel it is indeed one of the most important ways that one can find true happiness and purpose in life. Some of you might have opted to undergo a vasectomy some time ago as a rational way of family planning to give your existing children the best chance of financial stability and a vibrant future. However, things may be different now and you may find yourself blessed to consider the possibility of bringing another life into this world. Thankfully, vasectomies are reversible. You can, once again, embark on the fulfilling journey with just a simple procedure that is extremely affordable now due to the advancements in medical technologies such as microsurgery. The process is painless and has a high degree of success. Here at

Microsurgical Vasectomy Reversals, under my guidance, you can relive the happiness that you remember feeling when you first brought a little bundle of love into this world. So, don't hesitate and call us today to find out more about how our services can help you expand your family.?

Dr. Mark Hickman has more than 26 years of experience under his belt as a leading minimally invasive surgeon. Dr. Mark Hickman is an expert in laparoscopic procedures, which is an operation performed in the abdomen or pelvis using small incisions with the aid of cameras. He has also invented several surgical instruments and has been awarded a U.S. patent. His contributions also include several other important minimally invasive patents. He is not only an accomplished researcher and academic, but he has also demonstrated his surgical skill by performing more than 1,300 vasectomy reversals for patients over his decades-long career.

When asked about the cost of the vasectomy reversal process, Dr. Hickman says, "If you would have asked me this question several years ago, I would have given you a different answer. However, due to the pace with which technology, especially the equipment and instruments used during laparoscopy, has improved, we can achieve astounding results for patients for a cost that is far lower than what you may expect for such a procedure. Not only has the cost gone down but, along with it, the accuracy and success rate of the procedure have gone up. This gives those who've had a vasectomy even more reasons to bite the bullet and go through the reversal procedure if they are truly serious about starting a family or expanding their current family unit. Under my supervision, you are guaranteed the best medical care for your health goals at an affordable price.?"

Dr. Hickman offers two all-inclusive affordable options for vasectomy reversals. The microsurgical vasectomy reversal cost option of \$3,300 includes local anesthesia and an oral sedative. The \$4,200 offer is performed under IV sedation and is administered by a Board Certified Anesthesiologist. Both microsurgical options are all-inclusive with no hidden fees. Patients visiting New Braunfels for the procedure can also avail of local discounts on lodging arranged by the doctor's office.

Readers can contact Microsurgical Vasectomy Reversals by Dr. Mark Hickman at the phone number (830) 660-0600 or the email address drhickman@micro-vas-reversals.com for inquiries or to schedule a free consultation.
