Chicagoland Fireplace and Chimney Restoration is a professional company that provides fireplace repair services in Chicagoland and the nearby areas. The company has decades of experience in handling different chimney repair and fireplace repair jobs. Over the years, the company has been improving its services and adding new services to make sure that they cover all the needs a homeowner with a chimney and fireplace could have.

Recently, the company has announced that they now have improved fireplace cleaning services that are part of their fireplace repair services. According to the company website, "While you may do a good job of cleaning up your ashes after every fire, soot can still collect on the walls of your fireplace and on the damper ledge. During a general fireplace cleaning, we professionally remove this accumulated soot. We also inspect the firebox, smoke chamber, and flue in the process to check for any blockages that could create dangerous conditions."

The company also offers chimney sweep services, fireplace restoration services, and fireplace repair services. The cleaning services are aimed at making sure that the fireplace looks good inside the house,

especially if it is a wood fireplace. Anyone interested in the services the company provides can contact them and talk to a professional chimney and fireplace expert about the services they need.
