

Olympus Mobile Tyre Fitting Is Offering Flat Tyre Repair Services In Hertfordshire And North London

May 24, 2022

May 24, 2022 - PRESSADVANTAGE -

Olympus Mobile Tyre Fitting is offering 24-hour mobile tyre repair, fitting, and maintenance services in Hertfordshire, London, and Essex.

Having a wheel blow out and getting stuck with a flat tyre in the middle of a long journey is one of the biggest fears that motor vehicle owners have. Primarily, it is a waste of time and money as it forces the driver to delay or postpone their commitment and, on top of it, shell out money for repairs. However, more alarmingly, it also exposes them to potential accidents while they are waiting on the side of the road. It even makes them vulnerable to being accosted by those with nefarious intentions. Professional help may also prove to be unreliable as one might be too far away from home or their destination to know anyone providing roadside vehicle assistance near the area where they are stranded. Thankfully, if drivers are stranded on any major highway or motorway throughout Hertfordshire and North London, they can now rely on the 24-hour emergency mobile tyre-fitting and repair services offered by Olympus Mobile Tyre Fitting.

Olympus Mobile Tyre Fitting has been providing mobile tyre-fitting services for more than 10 years. Its range of services includes mobile tyre-fitting, mobile tyre repair, vehicle tyre punctures, emergency tyre-fitting, locking wheel nut removal, van tyre-fitting, and mobile caravan tyre-fitting. The company is adept at fixing tyre punctures, one of the most common complaints of those seeking its emergency services. Regardless of the reason behind the puncture which could be anything such as a nail, a screw, a sharp stone, a curb, or the tyre's age, the company can provide a fix that not only gets the driver out of the sticky situation but also lasts for a long time. Apart from its emergency services, the company also provides 2-hour and 4-hour tyre fitting windows for vehicle owners who have a planned tyre change or repair due. The company serves all types of vehicles including mini-cars, sedans, CUVs, SUVs, hatchbacks, roadsters, pickups, vans, coupes, sports cars, campervans, cabriolets, caravans, minivans, mini-trucks, and any other vehicle up to 3.5 tonnes of weight.

A spokesperson for Olympus Mobile Tyre Fitting talks about what makes its services special by saying, "We have been the tyre experts for your automobile in Hertfordshire, London, and Essex for over a decade now. We can rectify your flat tyre at any time of the day, wherever you are. Whether you are waiting for your saving grace in the emergency lane of a motorway or if you are at work and have enough time to get your vehicle's tyre replaced or repaired, we can make sure to remedy your tyre repair troubles. We will also ensure to improve your wheel's alignment, check your tyre's tread, check the car tyre's pressure, and advise you on all options ranging from run-flat tyres to specialist valves to wheel balancing. In case you already have a spare tyre in your car, but can't fit it yourself due to a lack of technical know-how, experience, or a disability, we can help you with that too. We will do everything that is needed to get you back on the road and on your way to your destination."

The company's budget car tyres start at £100, its budget van and caravan tyres start from £120, whereas its medium and premium tyres are more expensive. Olympus Mobile Tyre Fitting mentions on its website that the prices will differ based on the vehicle owner's preferences, availability, and location. All of the costs for mobile fitting include mobile tyre installation, wheel balancing, a new valve (excluding TPMS and metal valves), and the disposal of the old tyres. The company provides a range of tyres that vary in width, aspect ratio or profile, tyre construction, rim size, load index, and speed symbol. It provides tyres from several different manufacturers such as Goodyear, Rapid, Bridgestone, Dunlop, Michelin, Pirelli, Yokohama Tyres, Continental, and more.

Olympus Mobile Tyre Fitting can be contacted at the phone number 07411 448680 or the email address hello@olympustyres.co.uk.
