

Sunny Energy is Proud to be Nationally Recognized, BBB Accredited, and A+ Rated Solar Contractor

May 18, 2022

May 18, 2022 - PRESSADVANTAGE -

Sunny Energy, a trusted solar panel contractor in Tempe, AZ, since 2008, is proud to acquire national recognition, BBB Accreditation, and an A+ rating for a solar contractor. They are also named one of the top solar contractors in the country by Solar Power World Magazine for five years and counting for being dedicated to helping homeowners save money on their electric bills.

To gain all this recognition, Sunny Energy focuses on the company's pillars of sustainability and success, which are stated below:

Invest in People: Hire local, qualified employees.

Insist on Quality: Select high-quality, highest value products for the customers.

Put Customers First: Provide exceptional customer service.

Continually Improve: Reinvest profits in R&D, quality, and process improvements.

Be Ethical: Maintain an ethical business and environmental conscience.

Be a Good Neighbor: Invest in the community by helping to improve the business of solar, improving student educational programs, and assisting organizations such as St. Jude's Children's Hospital and Mom's Pantry.

"The business didn't happen overnight," Joe Cunningham, the co-founder of Sunny Energy, says. "I also co-founded the Distributed Energy Resource Alliance (DERA), a nonprofit dedicated to the development of solutions to ensure reliable, clean, renewable energy. What started as a dream in 2008, Sunny Energy has grown to be a nationally-ranked solar panels installation company located in the heart of Arizona."
