

Fresh Page Home Improvement Remains One of The Leading Hail Damage Repair Contractors in NW Chicago

May 24, 2022

May 24, 2022 - PRESSADVANTAGE -

Fresh Page Home Improvement has made a name for themselves in the West Dundee, Illinois area by being there quickly for their customers when disaster strikes. They do this by offering a wide variety of disaster relief and roofing services. Among those are flood damage mitigation, fire damage repair, and hail damage restoration services. They are especially well-known for their hail damage repair services as they can help their customers in many ways to get their roof back looking good and watertight. The company owner, Patrick Page, says, "Living in the upper Midwest you never know when the next sudden hailstorm will hit. When they do, they can have a devastating impact on your roof. That's when it's good to have us on your side, because we can quickly help you recover as we efficiently handle all aspects of the hail damage repair to your roof."

Page went on to describe the steps that they take to help get a roof repaired after it has suffered extensive hail damage. He said it all starts with quickly arriving at a customer's house once they have been notified of a problem and then doing a thorough assessment of the damage. They will also go about making the roof as watertight as possible until the necessary repairs can be made. The company's experienced inspectors will

look for such problems caused by hail as metal components denting, bald spots in the roof covering, and shingle or other roof covering fracturing. The company owner added that they are also well-versed in helping customers with their insurance claims process. Once the work is ready to commence, that roof damage repair will be undertaken by their experienced and professional techs who don't cut corners and only use the highest quality roofing materials to complete the company's projects.

Those that have used Fresh Page Home Improvement to help mitigate hail damage after the unexpected happened have nothing but positive things to say about their experience working with this contractor. Cheri Silberstorf stated, "Our experience with Fresh Page could not have been better. Patrick was excellent to work with. We had hail damage to our siding/roof and with his experience as an adjuster helped immensely. His knowledge with his products and insurance experience was a bonus that we could not have done without. He was very helpful with design ideas and color choices and our house looks amazing! He is very thorough with customer service and makes sure his clients are happy. Not only did he keep in contact with us the whole time but makes sure the worksite was left spotless. We are extremely happy with our home and highly recommend Patrick and Fresh Page!" Richard Gabrys proclaimed, "Working with Patrick and his team has been a terrific experience. Patrick runs the team from beginning to end and managed customer communications and expectations throughout the process. He provided inspection, documentation, assistance with insurance, and direction to the team through all phases of the project. The installation team was huge, extraordinary, careful, and worked well together. My home was upgraded to meet the latest building roofing codes during the process, which because of his huge team, took one day. On the day following installation, Patrick sent out a painter to repaint the interior tunnels where the skylights had been replaced. They also combed through the plants and lawn to ensure everything from paper to nails had been removed and completely restored. I would not hesitate to use Fresh Page, again!"

Page also talked about some of the other factors that have made the company's hail damage repair services so popular. Among the most important of which is that they are a business that operates with extreme integrity. They also offer a peace of mind guarantee on their work, are licensed, bonded, and insured, and show their commitment to their customers every step of the way until a project is completed. He added that those that have suffered hail or other forms of damage to their NW Chicago area homes can contact them by phone, email, or by filling out the request a quote form on the company website.
