

Landscaping Company in Asheville NC Gets Another Five Star Review

June 06, 2022

June 06, 2022 - PRESSADVANTAGE -

Greenscapes Landscaping & Retaining Walls, a landscaping contractor based in Asheville, NC, is proud to announce that they have received another five star review. The homeowner was pleased with the landscaping services and the work done for their retaining wall. Some of the services offered by Greenscapes include large tree installation, yard maintenance, and quality landscaping. Landscaping, when properly done, can substantially improve the property's overall appeal and value.

Lisa W. gave Greenscapes five stars on Google and said, "I am very pleased with the service, price and quality of work of Greenscapes Landscaping. Ryan and his crew built some additional steps off a retaining wall that someone else had installed. The prior company did not build the steps down far enough and they would not come back to finish the job. In addition, the prior company had left piles of clay all over the lower part of my property. It was a mess - clay was being tracked everywhere! After building the steps, Ryan leveled the entire site out, removed debris and spread pine straw over a large area. I wish I had had them complete the project from the start - it looks so much better now. In addition, they filled in the retaining wall with some nice garden soil to replace the clay. They also planted a huge Green Arborvitae tree for me and covered an additional large garden area with pine straw. The crew was hard working, cleaned up the area after themselves, they even stayed very late several evenings to finish the job on time. [?] I have a lot of other landscaping projects planned and will definitely continue to use Greenscapes."

Other homeowners reviews are also available for those who are interested, such as the reviews on the Home Advisor website. Meanwhile, Ryan Endres, owner of Greenscapes Landscaping & Retaining Walls, says, "It gives us great pride to have received another five star review as it shows we are on the right path towards achieving our goal of providing excellent customer service. Rest assured that we will continue to do our best when providing our services."

A key advantage of landscaping as a way to enhance the curb appeal of a home is that it doesn't necessarily

require a large budget and a large amount of effort. The expenses can actually be adjusted according to the available budget. And there is also greater flexibility in choosing the landscape and vegetation components according to the homeowner's needs and preferences.

A properly cared for landscape can provide neater and cleaner looking surroundings for the property. Home sellers may actually expect a selling price that is between 5.5 to 18 percent higher if the home has a neat and tidy landscape.

Landscaping is more than just simple plantation and includes swimming pools, fire pits, ponds, fences, lighting adjustments, and gardening paths. The addition of outdoor rooms, terraces, and decks are exceptionally good to enhance home property value by several times. Although, the landscape structures will need high maintenance and investment, they are helpful in adding value and curb appeal to the property.

In addition, the strategic positioning of trees can also help in decreasing energy bills by reducing the heating and cooling requirements for the home. And the installation of lighting systems will not just boost the value and beauty of the property. It will also improve security and safety through the use of exterior lighting and the illumination of key areas, such as side doors, sliding doors, porch, and garage.

Established in 2001, Greenscapes Landscaping & Retaining Walls is a provider of different kinds of services, including demolition services, landscape design, retaining walls, patios, seating spaces, decks, outdoor kitchens, and waterfalls and ponds. Some of the projects they have completed include the: landscaping transformation for backyard soil erosion landslide in Waynesville; outdoor stone kitchen and fire pit in Candler; river rock waterfall and boulder wall in Buncombe County; Chimney Rock landscaping design that expanded backyard space for entertainment; and more.

Those who are looking for an Asheville landscaping company can visit the Greenscapes Landscaping & Retaining Walls website, or contact them through the telephone or via email. They are open from 8:00 am to 8:00 pm, from Monday to Saturday.
