Destin, Fla. ? Ever since the COVID-19 pandemic led to a myriad of travel restrictions, travelers have had to get creative with their trip planning. However, as time goes on, restrictions have become lighter and lighter. Though exciting, these frequent changes can make it difficult to stay up to date with all the current restrictions and criteria. To make it easier, Have Travel Memories, a luxury travel agency in Destin, FL, is providing updates on the latest entry restrictions for some of the top-visited countries in the world.

Of course, one of the most sought-after vacation spots is France. For U.S. travelers, entry is permitted upon proof of full vaccination, or a negative COVID-19 test taken within 72 hours (for PCR tests) or 48 hours (for antigen tests).

To travel to Spain, U.S. travelers will need to be fully vaccinated or have proof of recovery from COVID-19 within the past six months; for children between ages 12 and 18, a negative PCR test performed within 72 hours will suffice, and for those under 12, there are no testing or vaccination requirements.

China's entry restrictions are a bit steeper than many other countries, as travelers will need to present both a negative PCR test and a negative antibody test taken within 48 hours of arrival, as well as proof of vaccination. Similarly, U.S. travelers to Germany will need to be fully vaccinated.

On the other side of the spectrum, the United Kingdom has lightened its entry restrictions drastically. U.S. travelers no longer need to fill out a passenger locator form or show proof of a negative COVID-19 test. Likewise, Mexico allows visitors to enter their country without showing proof of vaccination or negative test results. However, travelers should be aware that they may be subjected to a health screening upon arrival, such as a temperature check.

Have Travel Memories is made of expert travel agents with the goal of giving families, friends, couples and individual travelers the vacations of their dreams. With their extensive knowledge of current travel restrictions, criteria and trends, they are able to orchestrate itineraries that result in stress-free vacations for their clients.
