

CHAPELWOOD

New Septic Systems Tank Replacement Services Offered

November 10, 2015

November 10, 2015 - PRESSADVANTAGE -

Chapelwood Sewer and Drain, a business based in New Jersey, has joined with Sewer Cleaner Newton to offer new septic systems tank replacement services. This will ensure people and businesses in the Newton and surrounding area are able to have properly functioning septic tanks at all times. Full details are available on <http://www.chapelwoodseweranddrain.com>.

"We have long focused on services such as sewer and drain cleaning, which we will continue to do," says Matthew Miglin from Chapelwood Home Services. "However, we noticed that there is a distinct lack of services for septic system repair and replacement. Joining up with Sewer Cleaner Newton enabled us to deliver those much needed services together. We look forward to a long and productive relationship."

Both companies will also continue to offer their regular services of general sewer plumbing, sewer repair, drain cleaning, and gas line installation. Both companies have nearly two decades of experience each, and they both noticed a strong demand for septic tank services. Working together, as they are, will benefit both their businesses as well as the community.

Some of the work they will be doing includes hydro jetting the lines, which is a maintenance tool that is often overlooked. "We have a range of different jetters available to flush lines from 2 to 16 inches in diameter," adds Matthew Miglin. "While this particular job is often overlooked, it is actually vital in terms of keeping septic tanks functioning properly."

Both Chapelwood Sewer and Drain and Sewer Cleaner Norton, as can be seen on <http://www.sewercleanernewton.com/>, are fully qualified, registered and insured to carry out this type of work. Their services have been very positively received by their many clients. "Really like working with Matthew and all the folks at Chapelwood Sewer & Drain," says Vincent Hoss.

People are encouraged to regularly visit the Chapelwood website and Facebook page, where they can be kept up to date with latest industry developments, as well as to receive coupons and special offers on some of the work that they do. By joining up on their septic tank work, both companies are now also able to offer a 24 hour emergency service.
