

10 Bible Verses Launches New Verse of the Day Images

June 06, 2022

June 06, 2022 -
Louisville, KY ? Today, 10BibleVerses.com announced a new daily scripture verse images service.

This new venture includes a shareable image and animated GIF to help readers visualize the written words. The project was created in an effort to provide Christians with another way to engage with the Bible through visually appealing scripture quotes that are easy to share online.

In today's fast-paced world people are bombarded with images and information. It can be difficult to remember things. That's where GIF images come in. Scripture verse images are the perfect way to capture the attention of modern people.

People live in a visual culture, and an image is often more effective at getting people's attention than words alone. In a world where people are constantly inundated with information, meme style scriptures help Christians remember their daily Bible verse.

"I am very proud of our creative team and their inspiring scripture images," said Tony Kummer, founder of 10 Bible Verses. "We've committed our best designers to create share-worthy religious content that can break through the maze of memes on the Internet. Let's be honest, plain text isn't going to keep anyone's attention

for long and much less change their lives. Our brains are constantly adapting to the modern visual presentation of information. If daily Bible verses stand a chance, they need to be presented in a way that will capture attention visually.
