

Life inTents Launches New Bell Tent With Replaceable Door

June 08, 2022

June 08, 2022 - PRESSADVANTAGE -

Portland, Oregon: Life In Tents, a luxury canvas bell tent producer, has launched the Timberline Exchange, a new 20ft (6m) canvas bell tent with a replaceable door to join its collection of weather-resistant canvas tents and tent accessories.

Glamping is becoming a popular way to enjoy outdoor adventures, and now thanks to this latest addition to the Life inTents catalog, business owners can provide an unforgettable experience with less hassle. In addition to durable 11.5oz canvas material, the tent features a removable door that can be unzipped and replaced in between uses to remain impeccable in appearance and function for each new guest.

The removable door as well as the tent's six air-circulating windows feature mesh screening to ensure a fresh and bug-free interior. The single wall canvas bell tent is made with 100% natural cotton canvas and includes both a ceiling wall jack and secondary jack for wood stove and/or air conditioning installments. The new canvas bell tent can withstand tough climate conditions as well as wind gusts of up to 50mph and is built

to last.

Canvas tent doors are one of the most common areas in need of cleaning or repair for tents that have a high amount of foot traffic. The easy zip-on door of this Life inTents release helps ensure the inevitable doesn't result in more downtime or tedious maintenance in your day-to-day operations. Made with glamping services and busy tents in mind, this canvas bell tent with a replaceable door takes glamping to a professional level of efficiency.

Giving guests a luxury camping experience that keeps them coming back has just gotten easier ? visit their website to see the replaceable door in action and place an order.
