Bronx divorce lawyer releases Juan Luciano releases a new article (<https://divorcelawfirmnyc.com/bronx-divorce-lawyer/>) discussing matters that are involved in the divorce process in New York. According to the lawyer, divorce can be difficult for couples no matter how friendly they may seem. In a divorce, both spouses need to think about their different needs and their children.

"Just like marriage sets the course for your emotional and financial future, so does divorce. But unlike marriage, you are going into a divorce with a different mindset and have different needs, both for yourself and your children," says the Bronx divorce lawyer.

The lawyer mentions that there are two options for a divorce: the first is an uncontested divorce and the second is a contested divorce. An uncontested divorce is one in which both the spouse and their lawyer can reach a mutually agreeable solution to issues like child support, property division, and child custody.

Attorney Juan Luciano mentions that the hardest part of any divorce or family law case is determining parental responsibilities for children. Each party should know the details of child custody. Legal custody can be split or shared. However, the court will decide which option is best for the child.

In the article, attorney Luciano also mentions Alimony (or Spousal Support). According to the lawyer, alimony is a financial payment made in accordance with family law. People can receive the support in one lump sum or in smaller amounts. New York offers three types of alimony: institutional, permanent, and rehabilitation.

According to the divorce lawyer, "The financial support of your children is essential to their future and well-being. According to New York family law, children must be financially supported until they reach the age of 21 or are otherwise emancipated. In NY, child support is calculated based on set guidelines that consider both partners' gross incomes. It further considers which parent is the custodial parent."

Lastly, the Bronx lawyer emphasizes the importance of having a skilled divorce lawyer when it comes to matters like child support and custody. Having an experienced lawyer may be able to help the client explore their options and make the best decision that will benefit the family.
