A spokesperson for the company comments on the high-quality dumpster rental services it offers by saying, "We have a simple philosophy for doing business here at 806 Waste Management: to offer a high-quality product with excellent customer service. We know that waste disposal is a rough industry and customers usually have little regard for the equipment they rent. We make sure to not pass on the repercussions of one customer's callous attitude towards rentals to another one. With detailed inspections and cleanings every time a dumpster is returned to us, we ensure that our customers only get the best hardware for their home improvement or waste disposal project. These pristine and robust dumpsters are backed up by professional office staff and delivery crew. The delivery techs will ensure that your dumpster rental reaches you exactly where you want, on the day, and at the time that we promised. Our courteous office staff will keep you updated about your delivery every step of the way and will be there to hear your concerns and help you find solutions to any problems you encounter.
