June 13, 2022 - PRESSADVANTAGE -

Brooklyn slip and fall lawyer Samantha Kucher releases a new article (<https://www.rrklawgroup.com/slip-and-fall-lawyer/>) discussing the meaning of slip and fall accidents in New York. The lawyer mentions that a slip and fall accident is often serious and life-altering. It is important for someone who is hurt in a slip and fall accident to seek the help of an experienced slip and fall injury lawyer.

According to the Brooklyn slip and fall lawyer, "Although a fall accident could be inadvertent, the ones caused by the negligence of another are entirely preventable. Otherwise known as premises liability accidents, these accidents occur on another party's property due to a dangerous condition. These could occur on public or private property, but the thing that sets them apart is that negligence is a factor in the fall.

The lawyer explains that there are several common causes of fall accidents. These include slippery floors, unsecured carpets, loose flooring, unexpected floor transitions, and inadequate lighting.

Attorney Samantha Kucher adds that negligence may also be a factor if the manager or owner knew about the danger but failed to make necessary repairs. According to the National Safety Institute, falls account for more than 8 million emergency department visits annually.

Attorney Kucher states that slip-and-fall accidents can cause serious, and sometimes even fatal injuries. These injuries can result in serious medical bills, lost work time, and long-term pain.

Slip and fall cases are protected under premises liability laws in Brooklyn and New York. These say that a person who owns or is in control of property must use reasonable care to keep the premises in a reasonably safe condition for the protection of all persons whose presence is reasonably foreseeable. When the party that is in control of the property fails to keep it safe, those who are injured have the right to hold them responsible for their damages, the injury lawyer says.

Lastly, attorney Samantha Kucher emphasizes the importance of having a skilled slip and fall accident lawyer when someone has been the victim of an accident caused by someone's negligence. Having an experienced lawyer may be able to help the victim seek compensation and receive what they deserve for their injuries.
