

Glowing Reviews Point Out Metal Roof in Connecticut Company?s All-Around Commitment to Excellence

June 24, 2022

June 24, 2022 - PRESSADVANTAGE -

Glastonbury, CT contractor Slavin Home Improvements, has made a name for itself in the Central Connecticut area by offering roofing and other services that feature quality workmanship, reliability & affordability. That has made them a popular option when it comes to home improvements for Hartford area locations that are as far away as Windsor Locks, Mansfield, Weathersfield, and Farmington. It has also led this contractor to be on the receiving end of many highly complimentary reviews. A perfect example of this is this 5-star review written by Krista which states, "Zak Slavin and his employees were a pleasure to work with. Zak was on time and responsive to all meetings, calls, requests, and commitments. I couldn't be happier with the process, the products used, the installation and the cleanup. The new roof has added immensely to our home. I have and will continue to recommend him and his company to anyone needing a roof." The above-mentioned review can be found on the company?s Google My Business listing. A place that has seen them attain a perfect 5 out of a possible 5-star rating on over 260 reviews.

Other examples of how the company?s customers feel about their services include this review by Jake Sullivan which states, "I recently had a roof replaced by Slavin home improvements and I have to say it was an excellent experience. They are extremely knowledgeable and responsive. They are reasonably priced and

final cost matched the quote, so there were no surprises. They did great work and left the site as clean as they found it. Zak is a true pro and pleasant to work with. They made the process a breeze and I would definitely recommend them for anyone in need of roof work.?

In yet another Slavin Home Improvements customer review on their GMB Listing that praises the company, Amanda Rose proclaimed, "Zak and his guys were awesome! They are all very professional. Zak was always responsive and answered all my questions in great detail. I am very happy I chose to work with them! I would recommend their service to anyone!?"

The owner of this exceptionally rated roofing and home improvement company, Zak Slavin, talked about what it takes to satisfy so many of his customers in such a complete manner. He says that it all starts with their 8-year-old company's foundation as a locally owned and operated business. That means they take great pride in the work that they do because they work and live in the communities that they serve. They also make sure that they use only the best roofing products and only employ well-trained roofing professionals with many years of construction experience under their belts. It was also indicated by him that his company is one that will never compromise on being a business that operates with honesty and integrity. The company owner also mentioned that there is no compromising when it comes to having all the required insurances and licenses in place for the type of work that they do.

Slavin also brought up the fact that their bread & butter roofing service is the whole roof replacement work that they do. A process that can take any size aging or worn roof and make it completely watertight and good looking again. He says that this type of replacement roofing work starts with a meticulous inspection that checks for both obvious roof imperfections and problems with a roof's underlayment and critical structure. From this inspection, the customer is then presented with an accurate, detailed, and fair roof replacement estimate.

The company owner informed that these jobs can often be completed in as little as a day and the job is not considered to be done until a thorough cleanup of the work area has been undertaken. Slavin Home Improvements is even a leading metal roof in Connecticut contractor. He added that customers are welcome to call him to schedule a free roof inspection and that this can also be done by filling out the request a quote form that's found on the company website.
