December 22, 2015 - PRESSADVANTAGE -

A waxing and skincare clinic in El Cajon, CA, is proud to announce that they have reached their milestone goal of providing 5,000 Brazilian waxes. The business serves the San Diego, CA area and is quickly becoming one of the most popular salons of its kind in the area. They now look forward to reaching their next goal of 10,000 waxes.

"I am so proud that we have been able to reach our goal and so quickly as well," says Celeste Andrade, founder of Waxing and Skincare by Celeste. "I credit the excellent work of my staff, as well as all my wonderful customers. Onwards and upwards to the next major milestone!"

Celeste is originally from Sao Paolo, Brazil, home of the original Brazilian wax. She uses her own natural sugar wax. This process is known as 'sugaring', which uses a specific type of paste. This enables the hairs to be trapped with ease in the paste and to be removed with minimal pain. The sugaring paste developed by Celeste is also 100% natural. People are encouraged to visit the clinic's website for more details on the paste and the procedures offered.

The clinic has received a wealth of positive reviews. "I've been coming to Celeste for 3 years now and she is the best," says Eloisa B. "I've gone with other ladies but never was happy with the work they did on me. Celeste really listens to what you want, such a friendly, nice person, and does such an amazing job. We talk the whole time which helps with passing time. I would recommend Celeste to anyone. You will love her work."

Waxing and Skincare by Celeste's website at waxingbyceleste.com gives full details about the different types of Brazilian waxes that are offered, as well as outlining who they are for. Celeste also wants to highlight that she is very well-trained on waxing techniques, which enables her to minimize pain. It is through her special methods that she has been able to reach 5,000 waxes and why her appointment book seems to be permanently filled with new customers.
