Carolina Waste Haulers? dumpster rental service lets its clients choose a dumpster which it will then deliver to their location. This service is ideal for homeowners or commercial contractors whose project is currently underway and the amount of junk that will be collected is undetermined. The customers are expected to load the junk into the rented dumpsters themselves over the course of the project.

The Carolina dumpster rental company has two dumpsters in its inventory available for rent. Its 15-yard dumpster is 12 feet long, 6 feet wide, and 5.6 feet tall. For customers who prefer a more hands-off service, the company also offers junk hauling services. If the customer has already collected all the junk that needs to be disposed of, they can avail of the junk hauling service where the company sends over a truck along with a junk specialist to load it. The customer can then just sit back and let the company?s employee load the truck with the earmarked junk. Depending on the amount of junk that the customer wants to dispose of, the company will charge a varying rate, ensuring that the customer only pays for space on the truck that they end up using.

For half a truckload or approximately 4 pickup loads, the company charges around \$299 to \$349. For a three-fourth truckload or approximately 6 pickup loads, the company charges

between \$399 to \$475. For a full truckload or approximately 8 pickup loads, the company charges between \$499 to \$599.
