

OC Partnership Reveals The Best Feminist Podcasts on Gender Equality

June 21, 2022

June 21, 2022 - PRESSADVANTAGE -

OC Partnership presents a new report that reveals the best feminist podcasts on gender equality. The report, published on OC Partnership's website, was compiled using expert opinions on the topic. The report was released amid the rise in female podcasts.

Podcasts are becoming more and more popular as a new trend. Despite the fact that 80 percent of most-watched shows are hosted by men, the vast majority of podcast listeners are women. Podcasts were seen for a long time as a boys' club. While they may be less visible or heard, women have been a major force behind podcasting's rise, especially after a recent wave of podcasts dedicated to feminism, women's issues, gender equality, and equity. This publication aims to address the lack of recognition of women's podcasts.

For the report, female business leaders were consulted for their professional views on the top feminist podcasts. The final compilation and review of the report were overseen by OC Partnership's team of sociology experts. The experts interviewed for this article discussed the different podcasts and their approaches to feminism and gender equality. The report found that ten of the best feminist podcasts offer

high quality and provide a high level of entertainment. The full report can be found here: <https://www.ocpartnership.net/10-best-feminist-podcasts-on-gender-equality/>.

Week after week, women podcasters keep putting out fantastic, valuable programs centered both around the lives and issues of women as well as general topics. The publication analyzes the best feminist podcasts according to the experts to give more recognition for their underrated efforts," said Lovel Howard, the Founder of OC Partnership.

Since the company's launch, OC Partnership has provided an extensive library of online resources on society, life, health, and parenting. The site aims to help to spread awareness among the masses to foster understanding and empathy by delivering information, advice, research, analyses, and tips on matters related to society, life, and mental and physical disabilities. It also features educational resources, new trends, and discussions on educational issues and solutions.
