June 22, 2022

Irvine, California - June 22, 2022 - PRESSADVANTAGE -

The Los Angeles-based Digital Marketing SEO Service Bliss Drive has ranked #1 on Google, Clutch, Yelp, Facebook, and UpCity for exceptional SEO Services. Over the years, The SEO Company has helped numerous businesses to achieve higher search engine rankings.

Traditional and organic SEO are both geared towards helping businesses make their way to the top of localized search results. The only difference between Local SEO and Organic SEO is that Local SEO optimizes business, service, or product searches to specific locations. The use of Local SEO services is an effective way to boost business sales. The search results are based on IP address and geolocation for search engines like Google. Local SEO services greatly benefit small businesses seeking to increase their online visibility and effectively reach their target market. Bliss Drive is a specialized digital marketing company with a team of SEO and Tech specialists, content marketers, web designers, and digital marketing professionals.

Internet marketing is a dynamic field that is constantly evolving. This is why we offer customized SEO services aimed at producing measurable results for our customers," said Richard Fong, Founder, and CEO

of Bliss Drive. "Our hard work and dedication to online optimization has paid off. Our current number-one ranking for our services underscores our brand's mission statement."
