KRDO TV releases a new article that discusses how someone can become their own boss by starting a business. The report, published on KRDO TV?s website, was compiled using expert opinions on the topic. The report was released amid the rise in entrepreneurship in the US and around the world.

A regular job cannot teach one the discipline and work ethic that comes with owning a business. A business teaches them how to make money to pay for food and bills and to keep their business afloat. It is easier to be one's own boss when one is young; however, many older entrepreneurs have successfully made the transition as well. The experts in the report explained the essential aspects of running a business.

For the report, business owners were consulted for their professional views on launching a successful business venture. Career advisors were also quoted in the article. The final compilation and review of the report were overseen by KRDO TV?s team of business experts.
