

Used Cars For Sale At Audi Dealership In Seaside, CA

July 07, 2022

Seaside, California - July 07, 2022 - PRESSADVANTAGE -

CA based Audi Monterey Peninsula is helping Seaside customers discover and finance used cars to meet their lifestyle needs and remain within budget. As a leading seller of used cars in the city, the dealership has a great deal of experience helping customers find their next vehicle, and they look forward to maintaining this exemplary record for years to come.

?If you are looking for a certified pre-owned car in Seaside, CA,? the dealership says, ?Audi Monterey Peninsula should be your first and last stop. Our pre-owned inventory is extensive, and you may go through the entire purchase experience from the comfort of your home by simply visiting our website. We encourage our customers to visit our website if they wish to browse our inventory as well, especially since the information provided with each listing can help them narrow down the list of cars they may consider making their own.?

Other than the sale price, which is prominently featured to enable at-a-glance browsing, a listing may include the vehicle?s full specifications, mileage, interior and exterior colors, MPG (with electric mile range for EVs or hybrids) and more. A picture of the vehicle is included as well, and a ?Compare? facility allows customers to

swiftly check one vehicle against another.

"Great small town feel," says one customer of the dealership in their 5-Star Google review. "Friendly and knowledgeable staff. Felt really good talking cars with fellow car enthusiasts. Had great car chats with Alex. Finance folks were good too. Amanda, whom I dealt with online and on the phone, was easy to deal with as well. Overall, it was a good experience there, and I ended up picking up a 2019 Q8 Prestige. Was worth it, even if I had to drive two hours away plus traffic, coming from the SF Bay area."

As time goes by, even brand new vehicles need maintenance or repair services to keep operating properly, so it is essential to work with a dealership that treats both the car and customer well during such sessions. Audi Monterey Peninsula understands that customers who purchase used cars may have even more concerns, and they recognize that a price cannot be placed on peace of mind. To address this, the dealership exclusively offers certified used cars in Seaside, CA, and customers can easily visit the team to have their car serviced if the need should arise.

Another review sheds light on this, detailing the post-purchase experience customers can expect. "Audi of Monterey has always been accommodating regarding appointment times for my Audi," says the review, which also gives the dealership a 5-Star rating. "They always greet me with a smile, and they make it such a pleasant experience even when I've had to wait at the dealership while they're servicing my car. Ms. Bloom is the one that has always helped me. They have my trust, I'll definitely get my next Audi from them."

Audi Monterey Peninsula adds that customers who wish to buy brand new can find what they desire at this dealership as well. As with their pre-owned inventory, all models can be browsed via the dealership's website. Further, customers may take advantage of the highly convenient Audi At Your Door system, requesting that a test drive be brought to their residence (or delivered following an online purchase). A trade-in can also be appraised virtually, and customers may have their vehicle picked up and returned whenever it needs servicing. Audi Monterey Peninsula makes it a point to stay up-to-date with market trends, and their digital experience is fast becoming one of their customers' favorite aspects of the dealership's services.

However, the dealership adds that customers who prefer a personal touch are always welcome to visit and talk to a member of their sales team in person as well. Audi Monterey Peninsula's in-person customer service was notable long before the advent of digital platforms, and they continue to uphold the brand's high standards to this day.

Audi Monterey Peninsula can be contacted in many ways, and customers may bring further inquiries to the

team via phone, email and social media. The dealership is always eager to help customers get behind the wheel of their dream vehicle.
