

Roof Works of Jackson Announces the Launch of Their Roof Rejuvenation Division

July 08, 2022

July 08, 2022 -
Jackson Township, New Jersey - based Roof Works is a company that has worked hard to establish a solid reputation in its New Jersey service area. It?s also a family operated business that was founded on the guiding principles of professionalism, superior craftsmanship, and integrity and strives to be as progressive as possible when it comes to roof repair solutions. A good example of the latter is that the company is pleased to announce the launch of their newly created roof rejuvenation division.

The company continues to make a name for themselves across the state of New Jersey with the expansion of their roof repair efforts with the creation of their new roof rejuvenation division. Their roof rejuvenation services use a patented treatment from Peak 301, it enables them to help restore and rejuvenate older and worn roofs at a lower price than what it would cost to do an entire roof replacement. One of the co-founders of this popular NJ roofing company, Sean Kelly, stated that Peak 301? is the all-natural, do-it-all answer for aging asphalt shingles: an application of chemistry-correcting formula that is guaranteed give extra years of life to your roof. Peak 301 works its way through every part of every single shingle to fix the chemistry that when its not present causes shingles to break down over time. He said, ?Just one application of Peak 301? will add at least 6 years to your roof. Something that is even guaranteed by warranty. But as long as your

shingles are in decent shape, it?ll be more like adding a decade.?

Kelly went on to describe Peak 301 as an all-natural, non-toxic, and sustainable in every sense of the word product. They at Roof Works can help Jackson, New Jersey homeowners avoid replacing their roofs early by offering this proprietary roof rejuvenation product. It not only helps homeowners save money, but also saves the earth by not prematurely replacing a roof and sending that asphalt to a landfill. He also pointed out that Roof Works does more than just rejuvenate a roof. The rejuvenation process they perform also includes a full comprehensive roof assessment, roof cleaning, gutter cleaning, and of course the full roof tune-up, roof rejuvenation. There is even an option that includes a house wash. This rejuvenation process comes with an industry-best 6-year warranty, and can be applied up to 3 times, adding up to an additional 18 years of life to a roof.

This type of unique roof repair offer is a trend that was started long ago by the company and continues to evolve today as more modern roof repair technologies and strategies enter the marketplace. A good example is the company?s recent winter roof repair specials. This offering was first mentioned in a press release that can be seen here at https://www.pressadvantage.com/story/49385-roof-works-of-jackson-nj-announces-winter-repair-specials.
It?s a service that became very popular during and after the winter for those that did not want to put off problematic roof leaks until the weather turned warmer.

Those that have experienced Roof Works repair services for themselves have been very pleased with the results. Emma Bakel stated, ?I am so happy with the job Roof Works has done with our roof! They showed up when they said, which almost seems unheard of nowadays! Sean, the owner is very nice and runs a great crew! We filed a claim recently, and they were on top of it from the beginning. Wonderful job, highly recommended! My insurance adjuster even commented on how easy they are to work with and how reasonable they are on their pricing! From top to bottom they were a pleasure to work with.? This review was taken from the company?s Google Maps Business Listing where all 50-plus reviews have rated the company a perfect 5 out of a possible 5-stars.

Kelly says that those that want more information on their roof rejuvenation or roof repair or replacement services can contact them by phone, email, or by filling out the form that?s found on the company website.
