

New Line Of Skore Candle's Scented Soy Candles And Melts Now Available

November 16, 2015

November 16, 2015 - PRESSADVANTAGE -

Skore Candle, a candle manufacturer in Barrie, ON, Canada, is pleased to announce that a line of its all-natural scented soy candles and melts are now available for purchase through Amazon.com. This marks a large step for the company, who want to better serve their U.S. based customers.

"We're super excited to be working with Amazon as it now enables our U.S. customers to purchase our products simply and easily through a reliable and reputable source," notes Co-founder Bradley Lalonde. "Amazon will initially carry four of our candle scents and three types of melts in a bundle, and as we continue to build our relationship with them, we'll expand that number."

The popular favorites that are now carried by Amazon include the Girls Night Out Soy Candle; the Sex Appeal Soy Candle; the Pink Grapefruit & Rosemary Soy Candle; Renewed Soy Candle; and a Melt bundle of Goddess Blend, Lavender & Coconut Milk and Succulent Chocolate. These are all scents that have been very popular through the company's website for some time now and it is expected that they will be equally popular on Amazon.

As Co-founder Penelope Lalonde affirms: "This is a big step for our company and enables us to better serve our U.S. customers and build our brand in that marketplace. In fact, we source some of our key materials for our candles from U.S. suppliers, so as we increase our presence here, we'll further support the U.S. economy."

The all natural soy candles have been designed to hold scent better and to burn better and longer. Many customers are learning how these types of candles are far superior to standard paraffin wax candles, also because of its environmental impact. Paraffin is essentially a dirty waste product that emits various fumes when melting and burning.

Those interested in the range of scented candles are encouraged to visit the Amazon page at www.amazon.com/shops/skorecandle, or to check out the company website. By checking back regularly,

or by subscribing to the Skore Candle newsletter, they will also be able to be kept up to date with further developments, including new scents and bundles being launched on Amazon.
