

PSS International Removals Opens New Office in Birmingham UK

July 22, 2022

July 22, 2022 - PRESSADVANTAGE -

PSS International Removals, a UK-based international removals company, is happy to announce that they have recently opened a new office in Birmingham. The Birmingham office will make the removal process easier as customers will receive further support from surveyors in the local area. This includes Solihull, Wolverhampton and Coventry and other locations in the West Midlands. This comes in response to increased demand for moves to popular destinations such as Australia, New Zealand, Italy and UAE. More information about the international removals can be seen here <https://www.pssremovals.com/>.

Liam Witham, CEO of PSS International Removals, says, "Moving overseas is becoming increasingly popular. We are pleased to announce our new office in Birmingham and look forward to helping those in the West Midlands make their dream move abroad. PSS has helped customers move for over 40 years and our aim is to provide a stress-free removal service for all our customers."

Customers can use their cost calculator to receive an estimated cost for moving abroad for small and large household moves. For a more accurate evaluation, PSS recommends that customers book a free home visit from an International Removal surveyor as they will calculate the cost of the move based on the volume of goods being sent. Customers will also receive advice on how to prepare items for shipping from the surveyor.

PSS also provide a packing team who will expertly wrap all types of household goods. A previous customer of PSS remarked on Trustpilot that "the packing team was great, my move manager has been brilliant, and has made such a big move so much easier." Other services that can benefit customers include storage facilities in the UK or abroad. Customers have the option of using a shared load service or a full load service. A shared load service is the most cost-effective way to move from the UK as the cost of removal is shared amongst customers who are making the same move abroad.

Founded in 1982, PSS has helped thousands of people make the move from the UK each year. Whether customers are looking to move a couple of boxes or looking for a full household removal from Birmingham, PSS will be able to help. The company is a member of the British Association of Removers (BAR) which

promotes excellence in the UK removals industry. Other accreditations include the FIDI Quality Standard which requires consistent quality of service and compliance with international regulations.

Customers are invited to express their interest in moving overseas by visiting the PSS International Removals Birmingham Office or contacting their team by phone or email.
