

Brinton Vision Ranked No. 1 St. Louis LASIK Center for Third Consecutive Year

July 14, 2022

ST. LOUIS, MO - July 14, 2022 - PRESSADVANTAGE -

Brinton Vision, a leading St. Louis LASIK and vision correction practice, was named winner in the Laser Eye Treatment category in the 2022 A-List Readers' Choice Awards.

This marks the third consecutive year Brinton Vision snagged top honors in St. Louis Magazine's annual reader's poll.

The A-List celebrates the best businesses in the St. Louis region and is based entirely on public write-in nominations and votes. "It means a lot to us that our patients have nominated and voted for Brinton Vision as the best LASIK in St. Louis," said Jason Brinton, MD, founder. "The fact that they've been satisfied enough with their visual outcomes to actively nominate Brinton Vision every year tells us we're doing what's right for our patients. We know our patients have some great choices for laser eye surgery, but they've put their trust in our team."

St. Louis Magazine reported more than 77,000 nominations and nearly 570,000 votes in the 2022 poll in all categories. Brinton Vision edged out two prestigious finalists, Clarkson Eyecare and Pepose Vision Institute,

for top honors.

?With Dr. Jason P. Brinton at the helm, the team at Brinton Vision conducts modern variations of LASIK that are tailored to every patient,? the magazine?s A-List announcement read. ?The practice even provides modern, bladeless LASIK, a process called SBK.?

Brinton Vision is the only full-time refractive surgery center in Missouri specializing in LASIK and all modern variations (including SBK, SMILE, Visian ICL and more) and was the first in the state to perform EVO ICL. Information about these vision correction options is available on the company?s website, BrintonVision.com.

About Brinton Vision

Brinton Vision is a state-of-the-art laser eye surgery practice located in Creve Coeur, Missouri, near St. Louis. Brinton Vision is the only full-time refractive surgery center in the state of Missouri that specializes in LASIK and its six modern variations, including SBK, SMILE, Visian ICL, KAMRA Inlay, RLE (refractive lens exchange) and PRK.
