

Florida Economic News: Funding For Rural Communities To Be Provided

July 23, 2022

July 23, 2022 - PRESSADVANTAGE -

Go Florida Title Loans, a Spring Hill, FL based financial aid provider, has taken note of the Florida Department of Economic Opportunity's decision to provide historic funding for rural communities. The funding is meant to go towards infrastructure projects that will facilitate further development initiatives and strengthen these communities' economies.

As a result of these initiatives, rural communities can now apply for investments of up to \$30 million, which will be used to make positive, long term developmental changes in rural Florida communities that will have a massive impact on multiple generations. \$25 million will be available for the planning and construction of improvements to public infrastructure. A further five million is available through the Florida Panhandle Specific Appropriation for Calhoun, Gadsden, Holmes, Jackson, Liberty and Washington counties.

This will likely have a positive impact on Florida's rural communities, and Go Florida Title Loans looks forward to seeing exactly what that might look like. "We believe supporting rural communities is a great thing for every community," said a spokesperson for Go Florida Title Loans. The company knows how an injection of funding can make a world of difference to both communities and individuals as this is the business that they are in - offering financial aid where it is needed. The company offers low and competitive rates, and one need only supply their car title as collateral.

The process of receiving aid from Go Florida Title Loans is a simple one, beginning with the application process. Customers supply all the necessary basic information about their vehicle to get the process started. This takes just under two minutes. and verifies the information provided. Next, the customer submits the required supporting documents, which include an ID or driver's license, proof of income and their car title. Finally, the customer receives the money by cash, check or deposit within one hour of approval. The entire process from start to finish takes less than a day making it a perfect option for people who are dealing with unexpected emergencies.

No one can predict when they might need a quick injection of cash, and it is common to underestimate how having access to a small amount of emergency funds can be the difference between managing to make ends meet one month and failing entirely.
