Westchester County divorce attorney Juan Luciano releases a new article (<https://divorcelawfirmnyc.com/westchester-divorce-lawyer/>) explaining family law and divorce in New York. The lawyer mentions how divorce can be stressful for people and can also cause emotional turmoil. This is why attorney Luciano emphasizes the importance of having a lawyer who is compassionate and understands the situation in order to help one get through it.

According to the Westchester County divorce attorney, "Family law is as complex as families themselves. When hurting families are involved, divorces and other family law matters can never be distilled into legal concepts, financial arrangements, and where the children will go on weekends and holidays. Family law deals with real people with real needs."

In the article, the lawyer discusses the differences between uncontested and litigated divorce. When deciding to end their marriage, a couple needs to make many decisions regarding their assets, children, and debts. An

uncontested divorce means that a couple is able to go through their divorce without the need for a court hearing. A contested divorce is one in which a couple has to go to court to agree on key issues.

These are only a few important points that attorney Luciano mentioned. The lawyer also says that the court can be used to resolve disagreements over child support, custody or asset division. A divorce attorney with extensive experience in these situations is essential for any contested divorce.

In the article, attorney Luciano discusses uncontested divorce. Uncontested divorce refers to a marriage that has reached an agreement among its spouses. An uncontested divorce allows spouses to come to an agreement about important matters regarding children and assets. This permits a final divorce without having to resolve any issues.

The divorce lawyer also points out that uncontested divorces are not always amicable or friendly. In order to reach an agreement, lawyers often have to work with each party. It is often done in a way that saves both time and money.

Lastly, attorney Juan Luciano emphasizes the importance of hiring a skilled divorce lawyer when it comes to matters such as child custody, spousal support, and asset division. An experienced lawyer may be able to help the client understand their rights and responsibilities in the case and hopefully help them receive a more favorable outcome.
