July 26, 2022 -
Go Carpet Cleaning, a company based in Atlanta, GA, has announced that they are offering carpet cleaning in Chamblee and neighboring areas. They want to emphasize that their traditional carpet cleaning employs cleaning products that are capable of effectively removing spots and stains on carpets, and are particularly effective in cleaning those high traffic areas in the home. And aside from carpet cleaning, they also provide upholstery cleaning, pet stains and odor elimination, rug cleaning, commercial services, and air duct cleaning.

Gal Biton, owner of Go Carpet Cleaning, says, ?The majority of people do not have the time or the proper technique to clean, maintain and to care for their rugs. You want them to look like new, at all costs, you bet on retail products that seem to be aimed at cleaning carpets and in the end end up leaving toxic residues on the fabrics. Our professional team will give your carpets the deep cleaning they deserve. We use eco-friendly products that are safe for pets and children, so you don?t have to worry about anything toxic getting left behind in your home.?

Upholstery cleaning is an appropriate additional service that can be provided by Go Carpet Cleaning. People spend a lot of time on the couch and other furniture. And just like carpets, dirt and stains can easily get stuck

on the fibers of the upholstery. Upholstery cleaning is essential because if it is not cleaned regularly, pretty soon the couch and other furniture will have stains and what is worse is the bad odor. Most people don?t know how to clean the upholstery and may actually make the stain worse while trying to clean it. In addition to the bad smell and stains, dust and mites can accumulate in certain parts of the sofa, couch, and other furniture, possibly resulting into health problems. They recommend that upholstery should be cleaned at least once a year. Those who are interested in Go Carpet Cleaning can get updates on their online listing.

For those who have pets, Go Carpet Cleaning can also provide the cleaning and removal of pet stains and odor. Pet urine is actually a strong contaminant that needs special cleaning because it requires a cleaning product that can break the unique molecular chain that can be found in the urine. Upon noticing a pet stain, it is recommended to put a slightly damp cloth on it. This process should be repeated a few times. To get rid of the odor, one can add some vinegar to the water. If the stain is persistent, it is time to call on Go Carpet Cleaning.

They can also provide rug cleaning services. Rugs require special treatment because they are more delicate compared to the conventional wall-to-wall carpets. Rugs are made up of wool, natural fiber, or silk and this needs special maintenance to ensure that they remain durable. While cleaning them with vacuum cleaners may be used for daily cleaning, it is important to note the vacuum cleaners tend to have a high accumulation of germs. Thus, they recommend deep cleaning every 12 to 18 months.

Go Carpet Cleaning has established as its primary goal to provide excellent customer satisfaction. They can guarantee that their professional cleaners have the appropriate training and certifications to ensure quality carpet cleaning services. Their cleaning technicians are unmatched when it comes to hot water extraction or steam cleaning as the way to get rid of discoloration in carpets by thoroughly cleaning the fibers in a non-toxic way, using environmentally friendly chemicals. The areas they serve include: Alpharetta, Ansley Park, Avondale Estates, Brookhaven, Buckhead, Chamblee, Decatur, Doraville, Druid Hills, Duluth, Dunwoody, Embry Hills, Fair Oaks, Johns Creek, Kennesaw, Lawrenceville, Lilburn, Marietta, Milton, Morningside, Norcross, North Druid Hills, Pine Lake, Powers Park, Roswell, Sandy Springs, Smyrna, Snellville, Sugar Hill, Suwanee, Tucker, Vinings, Virginia Highland, and Woodstock.
