

# Fix-It Right Plumbing Expands Employee Training in Clearing Blocked Drains

*July 19, 2022*

CARRUM DOWNS, VIC - July 19, 2022 - PRESSADVANTAGE -

To continue offering excellent repair, maintenance, and customer service, Fix-It Right Plumbing is expanding technician training in critical service areas, including clearing blocked drainage systems.

Founded in 2007, Fix-It Right Plumbing has become one of Australia's largest and most highly-sought plumbing companies. Starting as a Melbourne-based plumber, the company also serves Adelaide, Canberra, Geelong, the Bayside Suburbs, the Northern Suburbs, the Eastern Suburbs, the Western Suburbs of Melbourne, and the Mornington Peninsula.

The Fix-It Right Plumbing technicians can assist customers with blocked drains, hot water access, burst pipes, leak detection, dripping taps, and gas leaks. Finding and clearing blocked drains in any sewer or stormwater drainage system is a specialty area for Fix-It Right Plumbing.

Aiming to equip its plumbing technicians with expertise and opportunities to hone their skills, Fix-It Right Plumbing believes in investing in its team members' training.

"All of our plumbers are not only qualified and registered, but they will also receive specialized training in drain clearing to ensure they have the knowledge and skills needed to get the root of the drainage issue effectively and efficiently," said a Fix-It Right Plumbing representative.

Reliable and efficient, the Fix-It Right Plumbing team uses only top-quality tools and equipment from industry-leading brands, including Rigid, The Jetters Edge, SECA, Percote, and Brawoliner Relining Equipment. Whether customers experience small or large blockages at home or in their place of business, Fix-It Right Plumbing has several methods of clearing blockages, including water jetting, cable machines, and chemical drain clearing products.

With expert professional training, the Fix-It Right plumbers can provide solutions to blockages caused by severely cracked or misaligned pipes. "Because we offer Pipe Relining, we can fix issues with pipes in difficult to access places like underneath houses, near pools, under driveways, etc.," said a Fix-It Right Plumbing representative.

"Pipe Relining services are an excellent alternative to digging up the pipes and removing the need for demolition and disturbance in the area." A new industry standard, pipe relining offers long-lasting results and, at Fix-It Right Plumbing, comes with a 25-year guarantee.

The company offers upfront pricing, service from a team of qualified and experienced plumbers, fully stocked service vans, knowledgeable and helpful service, and flexible payment options to help your home remain functioning and comfortable during lockdown times. While the popular local business has celebrated recent expansions into Adelaide, they remain dedicated to providing top-quality, friendly, and professional services - and continually improving their maintenance techniques.

As of late, the company has enjoyed an abundance of business milestones. In July 2021, Tradies News named the company one of the Melbourne area's top five plumbers. In November 2021, Fix-It Right Plumbing relocated and expanded the company's new headquarters. The new space is twice as big as the previous location, provides more office and factory space, and allows for the expansion of the team and the quality services offered. In March 2022, the company celebrated reaching the milestone of 1000 online plumber reviews with an average rating of 4.9 stars. In the same month, the business expanded into offering plumbing services in Adelaide and has since left a positive mark on the South Australian business community.

Furthermore, throughout the COVID-19 pandemic, Fix-It Right Plumbing has remained dedicated to delivering top-quality assistance to customers while upholding the strict regulations needed to keep the company's team and customers as safe as possible. This continued attention to detail, high-quality service, adaptability, and flexibility has allowed Fix-It Right Plumbing to increase brand trust and maintain the loyalty of thousands of customers across Australia.
