July 26, 2022 -
Go Carpet Cleaning, a company based in Atlanta, GA, wants to point out that they are also offering their carpet cleaning services and more in Decatur, GA and surrounding areas. They want to stress that their customary carpet cleaning methods utilize cleaning products that have been assured to be effective in eliminating spots and stains on carpets, and can also clean even those highly soiled places because they are in the high traffic areas of the home or business. In addition to carpet cleaning, they also offer pet stains and odor elimination, rug cleaning, upholstery cleaning, air duct cleaning, and commercial carpet cleaning services.

Gal Biton, owner of Go Carpet Cleaning, says, ?It?s not worth spending your free time cleaning your carpets. We?ll take care of it and leave them as good as new. What you really want is to spend time with your family, friends, watch your favorite Netflix shows, go for a walk or simply kick back to relax. Yes, it means making a call and an investment. But professional cleaning will guarantee proven optimal results and the peace of mind of that comes from not using toxic products that could harm you and your family. In addition, you will have free time for yourself.?

One important reason for getting professional help in cleaning carpets is that they can gather as much as 40 pounds of dirt in only one year. Vacuum cleaning may be done regularly to prevent that but it is important to realize that there are a lot of microorganisms in the vacuum cleaner engine. Thus, it has been recommended by the Carpet & Rug Institute to perform deep cleaning every 12 to 18 months using professional equipment. This will ensure that the carpets are truly clean and safe for family members, especially the kids. People who are interested in knowing more about Go Carpet Cleaning can get updates on their online listing.

Getting rid of pet stains and odor can also be provided by Go Carpet Cleaning, particularly for those who have furry friends. The problem with pet urine is it is a strong contaminant with a unique molecular chain that is difficult to clean. They recommend that homeowners immediately place a slightly damp cloth on the area once they spot a pet stain. Some vinegar may be added to the water to eliminate the pungent odor. But if the stains persist, it is time to call the professionals.

Go Carpet Cleaning can also offer rug cleaning services. It is important to note that rugs need special treatment due to their more delicate nature in contrast to the usual wall-to-wall carpets. Rugs are typically made from wool, silk, or natural fiber, and this requires special maintenance to avoid damaging them.

Also available from Go Carpet Cleaning is upholstery cleaning. People frequently spend a lot of time on the couch, sofa and other furniture, which means that sweat, dirt and stains can get stuck to the fibers of the upholstery, just like with carpets. Upholstery cleaning is therefore necessary because if the upholstery is not cleaned regularly, it will soon have ugly stains plus have an unpleasant odor.
